**Von Mel Keegan : Death's Head (NARC Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Death's Head (NARC Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 2 Kunden fanden die folgende Rezension hilfreich. Brilliant complex adventure!Von Kindle CustomerSet in a high tech future this book reminded me of a japanese robot anime!We have two great, sexy characters, partners in the paramilitary force called NARC who fight against the vicious drug cartels who run whole planets.Jarrat Stone are a great pair of heroes, and the author has created a fantastic futuristic world of high tech gadgets and hardware.If you like pure escapist entertainment with a terrific story-line and

non-stop action then this is the book for you. It also has lashings of great gaysex!

KurzbeschreibungFour and a half centuries from now, a lethal designer drug known as Angel has become an epidemic disease, and a new breed of hero has evolved to a generation doomed to be lost to its ravages. Jarrat and Stone are captains in the paramilitary NARC -- Narcotics and Riot Control -- assigned to combat the Death's Head drug syndicate in control of the vast spaceport city of Chell. Under the NARC code of non-involvement, each of the two men hides his deeper desire for the other. But when Stone is captured on the urban battlefield and forced into Angel addiction, Jarrat's love for him is his only chance for survival ... but the price is that their minds will remain permanently linked in an empathic bonding... And for NARC, the opportunity offered by this unique situation is too golden to pass up. To the team designing cutting-edge surveillance systems, the connection between Jarrat and Stone is a gift from jealous gods. But for the men themselves, the situation is an explosive cocktail of desire and dread, love and anger -- the struggle to survive, and a harsh question which both must answer. Will they let the department turn them into labrats in order to preserve their rank, their position, and keep on doing the job which, for each, is a burning vocation? THE UNABRIDGED EDITION: from DreamCraft was first published in March '04. It's 30,000+ words longer than the original GMP issue; its new jacket was designed in consultation with MK.
