Von Tom Clancy : Debt of Honor (A Jack Ryan Novel Book 6) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Debt of Honor (A Jack Ryan Novel Book 6) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 4 von 4 Kunden fanden die folgende Rezension hilfreich. The

Explosive Prelude! Von Ein Kunde Tom Clancy's "Debt of Honor" is a masterpiece right from the start. It shows the trials and anger of threats and mistakes. The story goes like this: Jack Ryan becomes President Roger Durling's National Security Adviser, or NSA. Right from the start he does a better job than Liz Elliot in "The Sum of All Fears." He knows more about defense than Elliot did. President Durling has had a good time in the Oval Office so far, and his Vice President, Ed Kealty, has a very bad scandal that just recently went public. The Japanese take over the Marianas Islands and Guam. Then for the next 800 pages it's one big fiasco between the U.S. and Japan, India, and China. I strongly recommend this book to any Tom Clancy fan or someone who is just starting to read Tom Clancy. 4 von 4 Kunden fanden die folgende Rezension hilfreich. Debt of Honor Brings Realistic Action and Espionage Von Danny Wilson Debt of Honor is a book by Tom Clancy about a war between Japan and the United States that starts over a trade disagreement. The turn of events that triggers the war are creatively thought out and frighteningly realistic. The book follows Jack Ryan as the President's National Security Advisor as well as his colleagues John Clark and Ding Chavez in the CIA. The novel covers all aspects of the war with great detail and wit including the diplomacy, espionage, technology, politics, and military usage of a war. The book pulled me in from the rising action in the beginning to the explosive ending that leads into Executive Orders, the next book in the Ryan saga. I would recommend it to anyone who enjoyed any of the Jack Ryan novels or movies. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Riveted on the Edge of My Car Seat! Von SABell The audio version (although abridged) loses nothing in the story. John Rubinstein does a terrific job of voice characterizations and you will have no problem keeping the characters straight. The audio is crisp and clear and easily heard in the noisy environment of a car. My only gripe is that some special effects would have been nice. This is a riveting, non-stop action audio book and well worth the purchase price. 6 hours.

Kurzbeschreibung Razio Yamata is one of Japan's most influential industrialists, and part of a relatively small group of authority who wield tremendous authority in the Pacific Rim's economic powerhouse. He has devised a plan to cripple the American greatness, humble the US military, and elevate Japan to a position of dominance on the world stage. Yamata's motivation lies in his desire to pay off a Debt of Honor to his parents and to the country he feels is responsible for their deaths: America. All he needs is a catalyst to set his plan in motion. When the faulty gas tank on one Tennessee family's car leads to their fiery death, an opportunistic U. S. congressman uses the occasion to rush a new trade law through the system. The law is designed to squeeze Japan economically. Instead, it provides Yamata with the leverage he needs to put his plan into action. As Yamata's plan begins to unfold, it becomes clear to the world that someone is launching a fully-integrated operation against the United States. There's only one man to find out who the culprit is: Jack Ryan, the new President's National Security Advisor. de Razio Yamata is one of Japan's most influential industrialists, and part of a relatively small cabal who exert tremendous authority in the Pacific Rim's economic powerhouse. He has devised a plan to cripple America's pre-eminent standing, humble the U.S. military and elevate Japan to a position of dominance on the world stage.
