**Von James Koeper : Deceived (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Deceived (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Top-notch: almost too believable Von Ein Kunde For anyone who enjoys a political thriller with an astonishingly timely plot line, I recommend Deceived heartily. It is certainly a step up from the typical novel of this sort. The characters are

genuinely interesting instead of being your average cardboard cutouts, and the author's command of geopolitical realities is impressive. (In this latter respect, it bears comparison with Crichton's *Rising Sun*.) Koeper's protagonist is an accountant who discovers billing discrepancies in his audit of a contract between a US engineering firm and the Chinese government -- a contract that is partly subsidized by tax dollars. The resulting chaos gives us not only a tightly-woven and believable plot (complete with an explosive and convincing conclusion) but also a window on the dark side of power politics sleeping giant, is awakening, and its aims and purposes do not coincide with ours. The book is not intended as a critique of the Clinton about the Cox Report or Chinese espionage. But for just that reason it's better than any thinly-veiled allegory could be. This is a case where a smart author saw the direction matters were taking before the headlines broke; it is just fortuitous timing that the book was published in May of 1999. Grab a copy if you're the literate type!

0 von 0 Kunden fanden die folgende Rezension hilfreich. There is no let down with Koeper's second book *Von Ein Kunde*. Once more Koeper writes a thriller that keeps you guessing the entire book. As his characters come to life you feel like you have met them somewhere before they seem so real. The key to Koeper's books is the time you spend contemplating what you have learned and is it possible to have this really happen to our government and in our country. If you were ever skeptical about politics this book will fuel your skepticism. Enjoy the ride on this emotional roller coaster.

0 von 0 Kunden fanden die folgende Rezension hilfreich. I thoroughly enjoyed this topical thriller!! *Von Ein Kunde*. With this book, Mr. Koeper again displays his special talents for creating multi-dimensional and thoroughly believable characters and intriguing story lines that keep you wanting more. Murder, intrigue and politics (international, national and office) all play a role in this topical thriller with characters worth caring about. Having now read Mr. Koeper's first two books, I can't wait for the next one.

Kurzbeschreibung *ONE NATION UNDER SUSPICION*. Nick Ford's record with the federal government is spotless. He's on the fast lane to success until the day he begins an audit of the Ynnan Project. Soon his every move is shadowed by a boss of the Chinese underworld, his best friend and colleague is brutally murdered, and a powerful U.S. senator accuses him of a crime he didn't commit. Alone and discredited, Nick fights back with the help of the one woman willing to stand by his side. Thrust into a deadly realm of plots and counterplots, Nick must learn to play outside the rules, because when not even Washington can be trusted, only a renegade can discover the truth. Trust no one or be DECEIVED.
