What is it about Clinton Steele that drives women nuts?Von Ein KundeHis assistant and his sister-in-law do strange things to get his attention. But you've got to know it's the one woman he can't have who peaks his "attention." Terri Powers has returned to work after taking three months off to get her head together. She's lost a husband and has suffered a miscarriage. Her business partner is double-dealing and her accountant is in cahoots with him. Now, a man whose business reputation leaves something to be desired wants her PR and advertising firm to represent him. Terri's not about to go there and tells him where he can take his personal and professional propositions. With all that's happening around her she's got to make quick revisions in her thinking about a lot of people -- Clint among them. As in most

Donna Hill novels, both characters have deep issues in their pasts to overcome. They find that if they work together, things may just work out. The characters don't always remember this and it leads to some interesting plot twists. Clint is a truly "heroic" character. It doesn't hurt that he's rich and good looking -- which might explain why he's so irresistible to women -- and, yes eventually that even includes Terri!

Kurzbeschreibung Is love worth the risk An unhappy marriage taught Terri Powers never to trust again.
