Von Chrissie Manby : Deep Heat (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Deep Heat (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 2 von 2 Kunden fanden die folgende Rezension hilfreich. good book Von Pulpfiction99 Deep Heat starts with Ali who has her appendix out. She has a fianc that she loves, so when lying in bed in the hospital she fills in a competition for the Romantic Couple of the Year. Believe it or not, but she wins the holiday. There is just one catch: her fiance has just left her. Ignoring the fact, that she could have just told the

magazine what has happened she starts lying and finding ways to go on the holiday anyway. The first three quarters of the book are really good and make a lovely read. but then it goes a bit over the top and gets a bit unbelievable and very hectic. the last quarter I didn't enjoy at all. but the end was really good again.
