**Von Stacia Kane : Demon Possessed (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Demon Possessed (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. No real twists or surprises, but those following series cannot afford to miss this one.Von Detra FitchMegan Chase is not only a

psychologist, but a psychic and the leader of a demon family. She has gotten used to dealing with paranormal things. After all, her best friend is a witch and she has a steamy demon lover, Greyson Dante. Megan and Greyson must attend a meeting of demon leaders. A week at a luxury hotel means they can spend some quality time with each other too. The downside is that the demon community will strongly suggest that Megan undergo the rite that will complete her transformation into a full demon. Giving up her humanity is not something Megan wants to do. Not now and very possibly not ever. It would also mean that she would have to give up her psychology practice, as well as her radio show. But unless she does the rite, Megan will lose Greyson. If that is not bad enough, an FBI agent is snooping around. She wants to know what the meeting is about. To heighten the danger and confusion, a minister is holding weekend exorcisms just down the road. The reverend is more dangerous than anyone could possibly imagine. And just WHO is trying to kill Megan?\*\*\* THREE STARS! Though fast paced and full of action, there are no real twists or surprises this time around. However, more details are revealed about Greyson and demon traditions in general. The major threat to everyone is exciting toward the end. Those who are keeping up with the series cannot afford to skip this one. The new details and Megan's changes, in various ways, are vital parts to the future titles. Author Stacia Kane writes with such ardor and distinction that it is no wonder to me as to why this series is so successful. \*\*\*Reviewed by Detra Fitch of Huntress Reviews.

Simon Schuster has a great book for every reader.ber den Autor und weitere MitwirkendeStacia Kane is an American who is now thrilled to be returning to the States after living in England with her husband, a UK citizen, and two daughters for more than two years. Born in Illinois, raised in St Louis, and a resident of South Florida for a dozen years, Kane's worked any number of low-paying jobs and a few higher-paying ones that were just as tedious. She enjoys cooking and reading, likes gin, French fries, and usually wears black...but who doesn't?
