Only had vague idea about the storyline and that actually was a good thing. The book takes you on a pretty crazy but well plotted journey. I might as that some parts feel a bit rushed while others are drawn out more then I feel needed - but

that takes nothing away from the overall experience. Read it. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Thought provoking! Von K. Simon As the author mentioned, it is a book about the question where do we come from and where are we going. It was both, entertaining, adventures and questioning as to where we go, what is good and what is bad and what are the unintentional consequences of our actions or quietness.
