Von Mark Kendrick : Desert Sons (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Desert Sons (English Edition):

KurzbeschreibungScott Faraday is sixteen and has no idea that his world is about to radically change. Scott is fun-loving, in a small-town rock band, and outbut only to a select few.Isolated in a high desert town, Scott doesnt know

anyone else who is gay. When Ryan St. Charles, a troubled 17-year-old, moves to Yucca Valley, Scott's world tilts on its axis. Ryan is a brash seventeen-year-old who has just severed a long relationship with a man, but still considers himself straight. As Scott and Ryan's friendship develops, Scott begins to suspect that Ryan might be covering up that he's gay. When Scott comes out to Ryan, their friendship is transformed into his first real relationship. Tightly focused on these two characters, *Desert Sons* follows the thoughts and emotion of the ups and downs of a young adult gay relationship. Filled with first-time wonder, teenage angst, and the swirl of emotions that can only be expressed by youth, readers are pulled headlong into a highly-charged drama.
