Right at a beautiful part too. No matter what is happening, you are your mates six.Back in Arizona at Twin Moon Ranch Ty decided he was taking Lana away, she's working way to much she should be taking it easy. The problem is Lana is good at what she does so everyone just stacks the files to he. Yep 3 days at the cabin here we come.Lana is worried about all the work she should be doing. Coming to the cabin, the first place they made love is so awesome both her and Ty alone, by themselves, It's a miracle. Do you hear that, someone is coming to the cabin, not someone but three someone's. Who are they and what do they want?Title: Desert Wolf 3: Chance EncountersWe had a baby finally after 9 long months Ty and my baby was born. Not being able to shift for 9 mos was really hard, then to get a routine going well let's face Lana need a break. And Ty is babysitting, yep he knew he could do it, what's the big deal he's probably already done it thousand times but not alone, ahhh he can do it.Lana went running with Rae yep girls night out.. It felt so good, been so long since she ran. Can she keep up with Rae, yep she could. They both stop dead in there tracks, did you hear that, what could it be? Someone's approaching I'd like to know what's going on first it's was the javelinas now months later someone else is in our territory. In the shadows you could see six glowing eyes, who are they? What do they want? Should we call for help?Title: Desert Wolf 4: A Very Close ShaveOh boy this is the last book of the Collection of short stories But even then they were very good. And Alpha's job is never done, there is always something that needs to be handled, always some trouble on the horizon. But today he was watching his precious little girl walking down the lane turning around "Bye Daddy" Gosh he already missed her. Lana was patiently waiting for him, hmm years! But Cody has a problem. What kind of advise can Ty give Cody?I was gifted this ARC for an honest and truthful review.0 von 0 Kunden fanden die folgende Rezension hilfreich. Take a bite out of love and lifeVon Jean SmithDesert Wolf 1: Friend or FoeDesert Wolf is a great slice of the happily ever after for Lana and Ty of Desert Moon. However, its just that, a slice, not the whole cake. But this cake happens to be multi-layered as well as multi-textured. In Desert Wolf, Lana and Ty have traveled to visit the Berkshire pack on the east coast. Considering the Berkshires are Lanas old pack and family as well as pack enemies to Tys pack, you can guess things arent going to go overly smooth for Ty. Challenges are inherent to the situation. But, aside from these things you get to witness the two of them away from their own pack and the growth even such a short trip away can give their own relationship. While short the story was a great introduction to the series. I was definitely intrigued by Lana and Ty who are obviously both strong alphas and very in tune with each other. Desert Wolf was my introduction to The Wolves of Twin Moon Ranch series and I looked forward to picking up Desert Moon and the rest to see what Id been missing.Desert Wolf 2: Strangers in the NightTheir love and bond are still as strong as ever and Ty

is feeling the pressure to ensure his mate is taken care of in the last trimester of her pregnancy. The impending stress of fatherhood weighs on him. Can he be the father his never was? The alpha demands of pack life are many but there has to be a balance. Three days away in the wilds of the desert at their cabin calls to him. But his duties as an alpha forever pursue him. In this case, its a visit from old allies are they still allies or are they a threat to his mate and pack? Find out and discover just why Ty and Lana are the perfect compliment to each other.

Desert Wolf 3: Chance Encounters God, life was easier when all he had to do was run a ranch, deal with his father, and fight off enemies of the pack. But then again, easier wasnt better, and he wouldnt trade his new life for anything. Such are the thoughts of Ty, a new wolf dad on the eve of his mate, Lana going off for a girls night out leaving him with their baby. Four hours alone with the baby. That shouldnt be so hard now should it? Hed done it all before, burping, diapering, the works. And, what of Lana? Four hours away from her four-month-old baby and her mate a much-needed reprieve to reward her wolf. Still, its hard to walk away. Even harder still is confronting the dangers of the night when one wrong step could mean never coming home again. But, like the alpha wolf she is, Lana is more than up for any challenge. All of it makes coming home so much more rewarding than she ever thought possible.

Desert Wolf 4: A Very Close Shave Its funny how just changing the POV of a scene can stir totally different things in a person. The main scene in this short story is presented in Desert Blood from Codys perspective. Of course, you only get a glimpse into the scene from an outsider perspective. It was hot but nowhere the kinda hot it is from Tys. He leaned back before she told him to, exposing his throat unquestioningly. There was something quietly thrilling about submitting to the chiseled edge of a razor, as long as it was yielded by the one person in the world he could truly trust. Something that turned on every fight-or-flight instinct yet kept them barely leashed, thrumming with tension. As hot as this scene was between Ty and Lana I have to admit the first thing it stirred in me was nostalgia. I can remember standing quietly at the door to the bathroom as I watched my grandfather go through his shaving routine. The straight razor, the bowl of shaving soap, the brush and finally the sound of the razor rasping up and down the stop... these memories floated through my mind quite viscerally as I read the scene. Were these memories not enough the heat of the scene stirred further sensual memories of similar occurrences in my own life. If youve never shaven or been shaved by a lover then let Ms. Lowe tease you with just a glimpse of how arousing it can be.

Desert Wolf: Complete Collection is an enticing glimpse into the lives of Ty and Lana of The Wolves of Twin Moon Ranch. The vignettes will capture and tease you with their possibilities. Now that I have read them Im just a little impatient for my next trip to the ranch. If you enjoy a good wolf shifter tale then this series should definitely capture your interests. *****Reviewed for Xtreme-Delusions*****
