Von Richard Marcinko : Designation Gold Rogue Warrior (Rogue Warrior series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Designation Gold Rogue Warrior (Rogue Warrior series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. RM is always entertaining, but he needs a return to depth...Von UFO6I'll always enjoy Marcinko's books, but he and Weisman need to do a 'headshed' on the deterioration of style evident from "Green Team" onward. Rogue Warrior was excellent and dead-serious (as an autobio should be); Red Cell was similar but the new latitude of fiction gave "II" a cocky intensity that was exhilarating. The three subsequent books are flawed in five areas (just off the top): 1)Going overboard (all puns intended) on humor, particularly with the "direct dialogue with the reader" literary device; 2)Diminishing detail on the "tradecraft" - techniques, hardware, technology, over-the-top skill, etc - that made I II (also Green Team to an extent,) so compelling; 3)Too much self-deprecation about the ravages of age, creaky bones, etc. Hey Dickie! Either get your butt into the gym like the rest of us schmucks, or quit yer bellyachin'! This is heroism, man - our Demo Dickie must be lean, mean, indestructible, and nothin' but!; 4)There's a trap in the "bigger and better than last time" progression. There is only so far up the chain of command you can go with villainy, before you hit open air. A super-high-ranking villain thinly constructed, is less engaging than a lower ranking weasel whose villainy is a more complex brew of cunning, deviousness, and generalized rottenness. 5)Plots - particularly in "Destination: Gold" - that seem increasingly like slap-dash, hastily constructed retreads of previous plots. Feedback from a humble tadpole: we won't mind if you take a few additional months to build a kick-butt plot...Again, I have yet to read the latest - let's hope it's a return to a rip-snorter like I or II.0 von 0 Kunden fanden die folgende Rezension hilfreich. A great read... Keep 'em coming C\*\*\*BreathVon Ein KundeBoth new and avid readers of this next edition in the "Rogue Warrior" series will enjoy the mad marauder's mis-adventures with murder, mayhem and and the mafia -- Moscow style. Designation Gold, a tale all it's own, delivers a fictional yet realistic glimpse into the world of US Special Warfare's battle with Russian organized crime on a personal and international level, Demo Dickie style... And as all armchair warriors who've read Marcinko's earlier books know, it's that Sharkman of the Delta's poetically profane finesse that keeps his enemies (and ours) shouting; "Ya veh pizde!" (You'll learn what that means when you read the book, tadpole). Marcinko, I salute you. You are a true hero and have served the West well in deeds and words. Thanks for both. Keep the books coming, sir (spelled with a respectfully irreverant "C", of coarse).0 von 0 Kunden fanden die folgende Rezension hilfreich. good espionage, bad military opsVon Ein KundeDemo Dick has the makings of a good plot here, and a slammin' opening situation - Dick helping the Russians? - but, alas, downhill from there. Dick, you write well about spec-ops and the warrior mentality. But enough already with fictions about "every politician is a greedy traitor", and "every soldier or sailor not in spec-ops is a doofus who knoweth not war". And why has the great leader of men written a plot in which he works almost entirely without the Team? Dick, keep the goons with you at all times - it's a better story than "Well, there I was ... alone and unarmed, when suddenly ...". Alone, Dick spys on Russians, Israelis, French, US Admirals, US Embassies, ad nauseum. Keep writing them, I'll keep reading them, in hopes thou returneth to thy old ways.

KurzbeschreibungThe Rogue Warrior has come to Moscow to investigate the assassination of Paul Mahon, U.S. Defense attach in Russia. Marcinko knows who killed him -- Andrei Yudin, a godfather in the Russian Mafia -- and he wants to know why. Instead, he finds a cabal of corrupt, mob-linked russian politicians. The revelation gets him yanked back to Washington, where orders come down to disband his elite team of SEALs.But even as the Pentagon's chain of command becomes a noose around his neck, Marcinko begins to cut and slash his way to the truth behind Mahon's death. More about survival than revenge, his mission soon leads him to a black-market network peddling terrorism in Paris, sinister trading in the Middle East, and a devil of a deal that puts American's safety up for sale....From Library JournalIn his distinctively terse, staccato voice, Marcinko reads his latest mission of doom (e.g., Rogue Warrior II: Red Cell, Audio s, LJ 4/15/94) involving the Rogue Warrior's travels to Moscow to find, and kill, those who murdered a good friend (who was also the U.S. defense attache) and his family. Of course, there is more than meets the eye. While tracking the killer, the Rogue Warrior gets entangled in an international plutonium smuggling ring that involves several governments. The action is nonstop and filled with nice tidbits about weapons, etc. While this is neither great literature nor politically correct, folks who enjoy an adventure will want to hear this. For popular collections.?Michael T.
