read the second in the series, which somewhat gave away events in this one. As the initial book in a series, we are introduced to the heroine, Kara MacAllister, and eventually all the nine Feral Warriors, each of whom will presumably get their own book. They all have silly names and nicknames which were rather reminiscent of the Black Dagger Brotherhood by J R Ward (names like Vhyper and Lyon). This story is Lyon's story, how he finds his true mate in Kara and how they save the world... or try to. When Kara is wrenched from her life in a small town to living in a mansion with a load of men, things start going from strange to stranger. She is apparently a 'Radiant', a special woman from a non-human race who is able to manipulate power to keep evil forces at bay. She doesn't want any of this, of course, but she does want Lyon, one of the Warriors, as he's rather dishy. But it turns out her true mate isn't Lyon but one of the other warriors - but she can't stand him. The book slowly reveals information about the feral warriors, the Radiant and those against whom they are battling. It doesn't particularly unfold characterisation, unfortunately, and I found it very difficult to tell the men apart from one another. I also found that as a reader I was in the dark as to what was possible in this world, thus whenever something odd happened it could be because of a Mage but I had no idea of what they were capable. The story held together mainly through the romance between Lyon and Kara which did seem very much physically based - plus some of their rituals weren't quite my cup of tea. It wasn't too bad a read but in many ways it was a mediocre story and I remember the second in the series that I've read, featuring Tighe, also seemed rather derivative. Die gesamte Serie liest sich sehr gut und ist spannend, interessant, lustig, etc. Kann ich nur weiterempfehlen.
