brought every book in this series after this book. This series is Extremely Recommended. Von Kasey Crees Max Henry has got herself a lifelong fan. I thought Book one blew me away, but now Book two has sold me on the fact that Max has a serious true talent for writing. She not only captures your attention, but gives you an amazing intense story to follow, with a side of SIZZLING intimate moments. This book starts out with a story type that I have never read anywhere before. The type of character history and pain, yes. But the journey this story took, I have never come across even though it is something many people have travelled in real life. I loved what she did with this. Vince is an intense, sexy man with an extremely disturbed past. Sonya is someone Vince has watched for many years with Extreme interest. Yes her large breasts are every man's dream, but she is one of the most caring and selfless women Vince has ever met. One thing leads to another and they meet in some scenes that resulted in multiple changes of panties, if you know what I mean. Lol. ;) But, Sonya is currently dealing with her troubled past; and Vince is dealing with his messy history trying to get back in contact with his estranged son, Malice. So, will they become each others forever? Can they be each others Forever? This, you will have to see for yourself.....
