Von Ana Seymour : Lady of Lyonsbridge (Historical, 529) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lady of Lyonsbridge (Historical, 529):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. This author make the middle ages come alive Von Ein Kunde In 1193 Prince John, ruler of England, orders Lady Alyce Rose of Sherbourne Castle, to marry Baron Dunstan. Heeding the advice of her late father not to trust any male, Alyce wants to delay her nuptials indefinitely or at least as long as possible. When a contingent of knights arrive at her castle, she assumes Dunstan is one of them. She feeds them tainted meat so they will want to depart faster. However, the

leader turns out to be Dunstan's enemy the Lord of Lyonsbridge, Thomas Brand, who seeks funds to ransom King Richard. Thomas immediately takes a liking to the servant wench Alyce, who returns his instant attraction. However, even when their identities finally are sorted out, the duo remains pawns in the regal rivalry and with Dunstan. THE LADY OF LYONSBRIDGE is an entertaining medieval romance that focuses on the impact the royal squabble between Richard and John has on even the aristocracy. The story line is fast-paced and filled with action, but what raises this plot above the zillion of similar tales are the antics of Alyce and Thomas trying to trump one another even as they struggle to earn the trust of their beloved. Harriet Klausner

Kurzbeschreibung Men wanted one thing and noblewomen had no choice. Certainly her forced betrothal did nothing to convince Lady Alyce Sherborne otherwise. Would that she could choose how to live her life and with whom! But given that freedom, would she turn down the subtly seductive Sir Thomas? The man who'd secured a king's ransom and taken her heart in the bargain? Women, he was learning, were dangerous and of that lesson, there could be no better teacher than the deceptively sweet, distractingly beautiful Lady Alyce. Truly she was a maid who bore watching and Thomas Brand was only too happy to keep his eyes ever upon her!
