Von T. Jefferson Parker : Laguna Heat (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Laguna Heat (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A classic "Who done it?"Von edijul@foothill.netI actually purchased this book by accident at a used book sale. After I started reading it I couldn't stop. Mr. Parker's writing style let the whole story portray in my mind. I could picture the characters and even smell the salt air. Sometimes I would stop and read an entire paragraph over because it was so beautifully poised. The plot has some twists and turns and about three quarters of the way through I had a hunch on

solving the mystery and I had to keep reading to see if I was right, but there was a surprise at the end. The only flaw that I saw was from a legal standpoint. In real life it would not have ended this way because of the way our justice system works. I won't give it away but it has to do with correct police interrogation procedure. Of course I'm probably just being picky because of having a law background. After I finished this book I went out and purchased "Little Saigon" and "Pacific Beat". I think that this book would make a heck of a good movie. Keep on pumping out the books Mr. Parker and I'll keep reading them.0 von 0 Kunden fanden die folgende Rezension hilfreich. Superior detective storyVon Ein KundeIt pains me to see only 1 other review in this space. I'm fairly new to T. Jefferson Parker, but to my mind he's better than John Sandford, Jonathan Kellerman, and James Patterson, much better than Robin Cook and Patricia Cornwell, and nearly the equal of Michael Connelly. Obviously he needs some better representation. Laguna Heat is a well plotted mystery with plausible twists and ironies. The characters, especially Tom Shepard, are authentic and finely nuanced, full of human frailties and intriguing historical baggage that unfolds along with the murder investigation. This book never overwhelmed me with its power, but consistently impressed me with its competence. Not a sentence rang false. I will eagerly seek out other Parker titles, and recommend this to any fans of the mystery/detective genre.0 von 0 Kunden fanden die folgende Rezension hilfreich. NICE, Mr. Parker, VERY NICE!Von Brad StonecipherWell this was Mr. Parker's first novel, so I thought it probably wouldn't be too great. Well, I was WRONG! This one is just as good as The Blue Hour and his others. I think Mr. Parker is going to be the next John Sandford and Patricia Cornwell.

KurzbeschreibungIn beautiful Laguna Beach, California, a young detective must investigate a series of murders that lead him into his own frightening past. Learning the truth is hard enough, deciding what to do with that truth will be even harder."Terrific: strong, tough, funny; with a sense of humanity and a fine eye for the telling detail." -- Robert B. Parker"Here is an author who knows America's voice, and more than a little of its truth." -- Whitley Strieber"A very polished and deeply felt performance." -- Donald StanwoodLaguna Heat was made into an HBO movie starring Harry Hamlin, Jason Robards, Rip Torn and Catherine Hicks.About the Author: T. Jefferson Parker is the author of nineteen crime novels, and a three-time winner of the Edgar Award. He lives in Southern California.PressestimmenLaguna Heat will linger in the memory long after all the puzzle's pieces are finally in place. The Washington PostParker is a potent and irresistible writer. Los Angeles TimesParker writes prose so hard-boiled he might have inherited Raymond Chandler's saucepan. USA TodaySlick and elegant...
