Von Phillip Richards : LANCEJACK (The Union Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised LANCEJACK (The Union Series Book 2) (English Edition):

Kurzbeschreibung Andy Moralee is no longer the young and terrified recruit who had last set foot upon New Earth two years ago. Decorated for his bravery during the final hours of the invasion and promoted to lance corporal, he is still troubled by his memories and haunted by nightmares. He finds himself unable to cope with life back on Earth, and so he returns to the red planet, the only place where he feels he belongs. But New Earth has changed as well. A growing insurgency threatens to turn the planet into a battleground once again, but this time the enemy has the ability to melt away into the population, and even turn the Union's weapons against them. Nobody can be trusted, even old friends. Quickly swept up in the gathering storm Andy finds himself in the command of a section that resents his early promotion, and during the battle that follows his leadership, his loyalty, and even his faith in his comrades are put to the ultimate test in the face of an enemy that will stop at nothing.
