Von Terry Tyler : Last Child (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Last Child (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Don't miss this sequel to Kings and Queens!Von Karen O.The book provides a greater insight into life after Harry Lanchester's death.With Last Child, Terry Tyler has created an excellent sequel to Kings and Queens. Harry Lanchester's death has not only affected his very different offspring; the lives of his friends and employees have changed as well. Last Child is a and gripping read with all too real characters. Terry Tyler carefully lets her characters evolve - a true art. I was drawn into the story right away, feeling like a close observer. This sequel confirmed my opinion on some characters; in some cases I gladly revised my opinion. Jaz, Isabella, Erin and their closest contacts are masterly portrayed. All other characters are equally real with all their virtues and/or flaws. Last Child is a great read

for family saga and drama fans, readers who like parallels to history. This is definitely not my usual genre. Despite that, I consider this - as well as Kings and Queens - as books to read again. Recommended!

Kurzbeschreibung LAST CHILD is the sequel to Kings and Queens, Terry Tylers modern take on the story of Henry VIII and his six wives. Harry Lanchester is gone, his legacy passed on to his children: Thirteen year old JASPER, who views the directors of Lanchester Estates as Harry Potter characters, and finds out that teenage love affairs are no fairytale. ISABELLA, the eldest daughter; lonely and looking for love, she returns from a holiday in Spain with more than just a suntan. Impulsive, independent ERIN, the girl of Transport manager Rob Dudleys dreams, whose priority is not a husband and family, but the continuation of her fathers work. You will also meet the ambitious Jim Dudley, ex-nanny Hannah Cleveley, Robs long suffering wife Amy, and Raine Grey, whose nine days as PR manager for Lanchester Estates have a devastating effect on her life. LAST CHILD takes the drama, passion and intrigue of Kings and Queens into the present day, with echoes from the past ~ and a glimpse or two into the

future... Kurzbeschreibung LAST CHILD is the sequel to Kings and Queens, Terry Tylers modern take on the story of Henry VIII and his six wives.
