Virginia court system. Her problems stemming from the embezzling activities of her former partner might be resolved but sculptor Jordy Decker is weary and suffering from an artistic block. The hollow victory leaves Jordy needing some RR to regenerate her creative spirit. She heads to the Florida Keys for ten days of snoozing in glorious sunshine. In a local photoshop in the Keys, Jordy receives the wrong pictures. Instead of serene scenery, she sees pictures of a badly beaten person. Tracing these obscene photos leads Jordy to fantasy writer Malacai L'Baan, author of the popular "Dark Pearl." Someone named Margaron demands that Malacai give her the real pearl. With the help of his grandfather, Cai and Jordy confront the ultimate evil at the same time they are falling in love. LEGEND OF THE SORCERER is a fabulous novel that has crossover appeal for fans of romance and fantasy. The story line is fast-paced as fiction turns into reality for the dynamic lead couple. Jordy is a wonderful person whose bravery and heroism surfaces when the need occurs. Cai and his grandfather Alfred are intriguing characters that tantalize the audience as they struggle with the "family secret." Author Donna Kauffman is quickly becoming a legend in her own time. Timmons It has been some time since I read a book that held my interest like the "Sorcerer". Couldn't put it down. After reading the two "Legend" books, I looked up the talented Donna's previous writings. While I enjoyed them, "You've come a long way, girl." Continued success. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Great Read Von kanyezi I freely admit, I read romances to turn my brain off. Nice stories, predictable endings, no thinking involved. In this respect this book spectacularly failed. Since instead of turning my brain off, I was immediately immersed in the world created by the book. I could not put it down. Although, while of course the hero and heroine get together other parts of the book were not easy to predict. I got to the book after reading some of Kauffman's short stories in anthologies, which I quite liked but which fall in the category of 'no thinking involved'. This book is very different from those. While I'm not usually into the whole magic-stuff, this book uses it in a way that even people who do not usually read fantasy will enjoy. All in all, very enjoyable read.
