CasalinoI read the few novellas contained in this book after having seen the epic movie "Legends of the Fall." In fact, I read it because of the movie. I should now recommend - although historically I do not - reading the (relatively) short book before viewing the movie. I am not knocking the movie by any means - but this book was a most excellent read! It hit the core of human passion - the darkness and light of it - with a raw and eloquent energy as

I'd never even sought before! There are two other novellas in the book - and one of them, "Revenge," has also been portrayed on the screen! Jim Harrison writes with as masculine, rough, and relentless a style as any writer I've ever read. I recommend this book of novellas wholeheartedly - it gives the core of emotion wrought from the human path without any need for the melodramatic twists contrived from Hollywood. This work of writing makes no apologies. And ah - so boldly and truthfully its vision proclaims - it does not need to!

It's is a raw and rough but the point is the thread of humanity runs deep and in unexpected ways. You live your life and make your decisions in your own way, looking for trouble or not; you can never be sure what you might find. You don't however expect to find skinny, pink lipped, pain in the rear Brad Pitt. What absurd casting in an otherwise fine film. This is about as bad as Rock Hudson in "Farewell to Arms"! The casting for Legends should have found someone who could have actually seemed troubled by the unexpected and tragic events of life. Mr. Pitt gazing off unfocused may be wondering if his car will be properly washed at the end of the days shooting. A much better pick for the character would have been Steve McQueen but unfortunately he was dead at the time. Avoid the casting problem and read the book.

Once I read this, I liked the movie far less, and was mesmerised by this beautifully written novella. For me, it is the writing itself, the language Harrison uses, that I like best. Beautifully written. A very tragic but moving story.
