LICENSE TO THRILL is a fast-paced romantic intrigue with several interesting twists that will provide much reading enjoyment to romance fans. Mel is a delicious heroine and Marc is an interesting Bond-like character who believably turns shy when confronted by love. With novels like this one, readers will constantly crave more works by Tori Carrington. Harriet Klausner 0 von 0 Kunden fanden die folgende Rezension hilfreich. The second half of the book redeemed the first half. Von Customer I wavered on whether to give this book a 3 or a 4, but by the end of the read, I was satisfied, so I upped it a star. The writing felt very disjointed for the first 100 pages or so, I didn't understand why the characters were acting as they were; I was frustrated by Marc's unwillingness to be honest with Melanie. I felt like I was missing the backstory that made these two decide they wanted to start a romance in the first place. But, by the second half I felt like the book had settled into the saddle and I was in for a good ride (read). The second half wasn't good enough to forgive the first half, but the motivations became more clear and the characters felt more realistic. I'll try the next book in the series, but I'm not dedicated to Ms. Carrington's work just yet. 0 von 0 Kunden fanden die folgende Rezension hilfreich. License to Thrill could get a ticket!
