**Von Nathan Burgoine : Light (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Light (English Edition):

Loved every second of it!Von free\_dreamerSummary: (taken from .com)Kieran Quinn is a bit telepathic, a little psychokinetic, and very gaythree things that have gotten him through life perfectly well so farbut when self-styled prophet Wyatt Jackson arrives during Pride Week, things take a violent turn.Kierans powers are somewhat

underwhelming but do have a habit of refracting light into spectacular rainbows for him to hide behind. Even so, its not long before Kieran is struggling to maintain his own anonymity while battling wits with a handsome cop, getting some flirting in with a hunky leather man, saving some drag queens, and escaping the worst blind date in history. Its enough to make a fledgling hero want to give up before he even begins. One things for sure: saving the day has never been so fabulous. My thoughts: This book was simply amazing. "Light" was funny, unique and had me hooked in absolutely no time. I liked Kieran from the very first sentence. He has a telepathic bond with his cat (Seriously, how awesome is that?), having created certain images and signals to represent the various activities in a cat's life. Other than that, he only uses his (all in all rather underwhelming) powers on his clients to find out where and why they are sore, making it a lot easier for him to massage those aches and pains away. Kieran is not really a hero, he has never used his powers openly and doesn't achieve any heroic deeds with them. That is, until a bunch of religious nutters show up at Ottawa Pride Week, the highlight of every year. Their "prophet" Stigmatic Jack is a psychokinetic that has a gift for randomly cutting "sinners" without needing a knife. That's when Kieran really uses his powers for the first time, by bending the light around him and blinding Stigmatic Jack and his followers. From this moment on, the mysterious saviour is known as "Rainbow Man" or "Disco", names that Kieran really can't stand xD So the plot is a little different from your average superhero novel - no superhero heroically saving the lives of innocents on a daily basis. No, Kieran is a perfectly normal man with somewhat limited powers, looking for the love of his life. His friend Karen keeps setting him up for blind dates with some of the weirdest men in the history of dating. While religion certainly does play an important role in this novel (the religious nutcases obviously make Kieran think about the way he sees religion), I never felt like the author was trying to force his beliefs on me. At times, "Light" was simply too funny to be true, without ever getting ridiculous. I spent a large part of the novel snickering at some remark or another. My favourite scene has to be during the annual Drag Off. I nearly fell out of my chair xD At other times, especially during the great showdown, I found myself breathlessly chanting "nonononono", completely ignoring everything around me. The only thing I wasn't too fond of was the whole "love at first sight" deal. But since it wasn't overdone and seems to be an extremely common phenomenon in romance novels, it didn't bother me too much. To sum it up, "Light" is an ingenious work full of humour and suspense that should appeal to any lover of paranormal romances that enjoy heroes that aren't all that heroic after all.

He has had over a dozen short stories published, including Bold Strokes titles Men of the Mean Streets, Boys of Summer, and Night Shadows. Nathans nonfiction pieces have appeared in I Like it Like That and 5x5 Literary Magazine. A cat lover, Nathan managed to fall in love and marry Daniel, who is a confirmed dog person. Their ongoing cat or dog? dtente continues (and will likely soon end with the acquisition of a dog). They live in Ottawa, Canada, where socialized health care and gay marriage have yet to cause the sky to cave in.
