Die Idee fr die Handlung ist sehr ungewhnlich, aber der Autor setzte diese einfach nur groartig um. Ein absolut spannender Roman mit romantischen Untertnen. Die Menschen werden durch kontaminierte Wasser infiziert, welches sie trinken. Sie werden krank und fangen an, immer mehr Wasser zu trinken. Danach folgt der allmhliche Niedergang der Menschen. Die Zombies bernehmen die Welt! Alicia und Jace sind die zwei Hauptcharaktere, mit denen man sich auf ihrer Reise sehr gut identifizieren konnte. Das Buch kam mir so realistisch vor, dass ich selbst nicht mal mehr Wasser trinken wollte!RWKClark hat ein enormes Talent, um beide Hauptfiguren lebendig zu beschreiben, sodass ich einfach nicht aufhren konnte zu lesen! Ich habe diesen sptesten Roman genossen.0 von 0 Kunden fanden die folgende Rezension hilfreich. Awesome Romantic story...Von Robert BrownThis book is really great i loved it the romantic part of this book how zombies love is shown its really awesome.This book has everything you'd hope for in a zombie apocalypse book. Of course- there's zombies. Tons of zombies. And the rapid human-eating-human change.But I also love the action. Action and romance combined? My fave! And that's exactly what this book entailed. Something for everyone.One thing I really enjoyed about these two main characters is that they're equally matched in wit and ability so they pair up well together. Of course that makes it easy for romance to grow between them, which adds a sense of hope to the story.I will recommended this book everyone to read its really an amazing story.....!

KurzbeschreibungAlicia Gaden is afraid, everyone seems to be changing. Everything around her seems to be going into chaos; the people while seemingly functioning, are changing before her very eyes. The water has begun to taste horrible, and everyone around them has developed an unworldly taste for the putrid liquid. They are distant and mindless, rude and violent, not only attacking each other, but eating each other as well. She isnt sure, but Alicia is willing to bet it has something to do with the foul tasting water in the city. In an effort to research the situation and protect herself from the monsters that are all around her, Alicia takes refuge in the student library, where she meets Jace Booth, a chemistry major studying there as well. Both of them appear to be immune to the spreading evil all around them. He is a chemistry student, and she is a biology major, so they join forces combining their mutual knowledge and skills in an effort to figure out the problem and find a solution. They must discover a way to stop the terrifying changes that have taken place, to win out over the ravaging undead who are roaming the Earth with them, in this Zombie Survival novel.KurzbeschreibungAlicia Gaden is afraid, everyone seems to be changing. They are my motivating forces; they are the lighthouse in this vast ocean. In this life, they are the air that I breathe; they are the oasis in this desert of uncertainty. They are my greatest joy in life, and my number one priority. I have a long list of hobbies, and I attribute that to my lust for life! I like to surround myself with positive people, who share the same interests. Family values, the arts, outdoors, nature, and travel are tops on my list. I embrace attending cultural and artistic events because I believe dramatic self-expression is the window to the soul. I wear my heart on my sleeve, and I still believe in the act of chivalry, and I always treat people the way I want to be treated. www.rwkc.us
