At the first moment I was relieved, that I only bought Vol. 1, since I'm not really into comics. But this story is really good and the graphics are fantastic. I downloaded the next ones immediately. 0 von 0 Kunden fanden die folgende Rezension hilfreich. So good. Von Mike Aaron It's so good, man. Just the way the thing was structured in character perspectives. ughhh, and the dialogue! I

really liked this one, bought all the rest.4 von 4 Kunden fanden die folgende Rezension hilfreich. The great start of an epical seriesVon D. SchulzI was searching for a good read, and found an absolutely gripping story with perfectly matching illustrations.I will not go into detail about the story, as there are a lot of reviews about that already and I don't want to spoil here for the following parts...Just this: The story is great from the beginning and it gets better throughout the series.As the kids start to find more and more keys in the house and learn about their "special effects", I was not able to put the books out of my hand before I had finished them all (or as many as there are at the moment).The series is dark and sometimes brutal, but never in an offhand way with lots of blood (although there is that, too), but the horror is subtle, and creeps right into your heart.What really got me is the combination of text and illustration.It is very well written, which gives the characters depth but the illustrations give them real life. Body language, facial expressions, and it is unbelievable how much you can say with just the eyes of a character.At the end of the day, there is only one thing to do: Read it, enjoy it, you will not regret it. The best graphic novel I have read so far!
