KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Texas Series To Top Them All!Von Melita WattsA very fitting end to the 'Texas Empire' series. Madeleine Hardin fled to Texas to escape the horror of what had happened to her in New Orleans. In the wild land of Texas, Maddy tries to realize her dream of running a cattle ranch, the Longhorn, alone. But a lot of dreams died during the Civil War, and Maddie is afraid hers did too--until a Yankee soldier shows up. Daniel Kent had been fascinated with the beautiful Maddie, but he never knew why she fled New Orleans. Now he has a chance to know her again, but Maddie is different. Life has changed her in a lot of ways. Dan has to admit he loves Maddie, but can he accept everything that happened to her? And what about the secret she's keeping from him? Evelyn Rogers' books continually and without exception delight her readers. Longhorn finishes the Texas Empires series with Maddie's story, a romance which

certainly satisfies and finishes off what happens to all of the Hardin family and their loves in the wild free land of Texas where Empires are made.

KurzbeschreibungTexas: it was a land of dreams, of unlimited possibilities. At least that's what Maddie Hardin had thought before she arrived and settled on her dusty run-down cattle ranch. Alone but for a few head of cattle, and the rowdy inhabitants of the Nueces Strip. Maddie didn't think things could get much worse. Until Daniel Kent walked back into her life. Her windswept blond hair teasing her features, her intense blue eyes blazing defiantly, Maddie could still affect him like no other woman. Daniel wanted nothing more than to taste her sweet kisses and feel her soft body beneath his. For though neither he nor Maddie could deny their tumultuous past, Daniel knew that they were destined to share a love as vast and untamed as the wide Texas sky.
