Von Kendal Flynn : Loose Cannon (CODA Agents Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Loose Cannon (CODA Agents Book 1) (English Edition):

Not only was the plot a real pageturner but the relationship between the two main characters was complex and involved and kept me hooked all the way

through. The start of a series which I am looking forward to following, Kendal Flynn writes with authenticity and knows her genre well. Definitely recommended

Kurzbeschreibung This time, the op was different. This time, they had her son... When Raeanne Springfield's son is kidnapped by Dmitryi Petrov, a ruthless enemy from the past, Raeanne finds herself thrown back into the dark world of covert operations she thought she left behind. But when Alex Dante, her former superior at the CODA, the Counterintelligence Defense Agency, shows up to take her into protective custody, Raeanne's backed into a corner. Should she obey orders from an agency that already betrayed her once, or slip back into the covert life and do whatever it takes to bring her boy home safely even if it means endangering her heart? Harder still--how to tell Alex Dante that Ryan's his son? Between Petrov's demands, the agency's evasiveness, and Alex's whirlwind reentry into her life, Raeanne can trust no one but herself, and only after she gets Ryan back will she worry about fixing past mistakes. If she lives long enough to fix anything... Kurzbeschreibung This time, the op was different. This time, they had her son... If she lives long enough to fix anything... ber den Autor und weitere Mitwirkende Kendal Flynn was born on a mountaintop in Tennessee before going on to sail with Long John Silver and slay dragons with Beowulf. It took her a while to realize that girls weren't supposed to be getting dirty with the boys, but she never quite found the fun in standing around and wringing her hands, waiting for some stuck-up dandy to ask her to dance. She'd have been more likely to take the dandy at sword point and tell him to dance with her, or else. Of course, in real life, she's a very ordinary administrative assistant, who's never taken anyone at sword point and who can't dance anyway. She lives in Southeastern Massachusetts with her husband, three children, and two amazingly spoiled Chihuahuas, which she admits are not the wisest choice for an action/adventure author looking to build an image.
