**Von Jane Sigaloff : Lost Found (Red Dress Ink Novels)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lost Found (Red Dress Ink Novels):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Yawn.Von Detra FitchHere is a book with an excellent plot, however, that is all I found going for it. These characters were just not realistic to me. I never came to care for either of the main characters.Needless to say, I lost interest within the first 75 pages. NOT a good sign. Novels should catch the reader's interest quickly. This one failed to do so. I'm sorry, but I can not recommend this title.0 von 0 Kunden fanden die folgende Rezension hilfreich. Eine der schensten Liebesgeschichten behauptt!Von SigiIch kann dieses Buch wirklich nur jedem empfehlen der eine romantische Ader hat! Witzig und kreativ geschrieben ist es auch fr solche, die sonst eher selten englischsprachige

Romane lesen, geeignet! Werde sicher wieder eines von Jane Sigaloffs Bchern lesen!

Kurzbeschreibung Her diary had never let her down, never told her it was too busy, never not been there for her. Unlike men! Now the unthinkable had happened. For high-flying London lawyer (and self-confessed control freak) Sam Washington, accidentally leaving her diary in a New York hotel room is a fate worse than death! Tormented by the idea of a stranger reading her innermost thoughts, she knows there's also a secret in her little black book that, in the wrong hands, would devastate her best friend and cause a tabloid sensation. Alarm bells start ringing when TV producer Ben Fisher turns up on her doorstep fresh off the plane from New York and desperately seeking Sam. They're complete strangers, yet he seems to know more than a little about her: Has he found her diary? Has he read it? Sam resolves to find out by getting closer to Ben who seems happy to oblige! Only, is his mind on kissing or just telling? From Booklist Samantha records everything about her life and her friends' lives in her diary, which is why she is so horrified when she loses it on a business trip. Ben is traveling with his sister when he discovers the diary, which he can't help reading obsessively as he is drawn in by Sam's humorous, scattered entries. When he returns to London, he decides to return the diary in person. Sam's roommate, Gemma, opens the door, and as soon as she realizes Ben is returning Sam's diary, she pretends to be Sam. The misconception is sorted out soon enough, but Ben isn't sure how to get close to standoffish Sam, especially now that he is (sort of) dating her roommate. Sam already suspects he may have read her diary, and when potentially devastating news comes out about the famous lover of one of Sam's friends, she immediately suspects Ben is the culprit. Sigaloff's second novel is a charming tale of star-crossed lovers. Kristine Huntley Copyright American Library Association.
