BrilliantVon Philomena(Cheekypee)Wow what a hot story this was. Not one but two hot men this author allowed me to drool over. Rebecca moves half way around the world to heal from her break-up. Nearly straightaway We are introduced to the sexy, hot Frenchman called Alan.... What happens with these two within minutes of meeting had my jaw dropping!!Just when I'd calmed down from that in enters Rebecca's boss Maxwell.... Yes another hot and sexy man.Thoroughly enjoyed the storyline yes there are lots of sex scenes in this book:)This book ended in a 'no way' moment for me. I hope I don't have to wait too long for book 2.Received in return for an honest review.

She also loves sexy alpha males with a soft center and a big heart. Her heroines are real women, sassy and smart and they stand up for what they believe in, even if it sometimes takes them a while to work it all out. When Jani isn't writing, she can be found reading, hanging out with her family and friends, or off on some travel adventure to discover new places and cultures. Jani also loves sitting in a corner at a coffee shop, with her laptop, spying covertly on the behavior of the people around her. You just never know when you may land up in one of her novels - lol. Fortunately Jani's partner in crime supports her living in alternative worlds and talking to characters that live in her imagination. He hasn't committed her to the looney bin - yet. Jani's two kids know that they are loved and cherished by their crazy mother who is now out to exact revenge for all the embarrassment they caused her when they were little - by her writing steamy sexy novels and publishing them. Jani hopes you will enjoy reading about the characters that live in her head and insist on being brought to life through her novels.
