Great author!Von M SockelThe style of this author is so different that she almost sucks you in without realizing it. The dialogue is so refreshing and different. Easy to follow and it is so true to life. You can almost hear the characters talking in your head! The more I read, the characters became so real. As you follow Belinda life seems to throw her so

many little curve balls. You dont even realize what is happening until you give it a little thought. The story flows so well that it takes you through the ups and downs in a breeze. When I thought that might be the end of the ups and downs there was another. What a good read!0 von 0 Kunden fanden die folgende Rezension hilfreich. Super ReadVon MaggieReading this book I realized that Belinda is so much like myself and many other women. We struggle through life but we dont complain. I could definitely relate! This book has such a feel good vibe. The characters literally come alive. Bridgitte Lesley has the knack of creating characters that become real. I felt as though I was reading about the family. This book is well written and a pleasure to read. I can definitely recommend this to friends and family.I also thank the author for gifting me a great book in return for an honest review, which I have given.0 von 0 Kunden fanden die folgende Rezension hilfreich. A medley not to miss!Von JLC13This book is a medley of literary fiction, contemporary romance, and a touch of classic. I say classic because it is so out of the ordinary. The story line is so different to what you normally read and it is not typical of anything I have read before. The story weaves itself so well that you cant help wondering what is going to happen next. Nothing is cut and dried. The twists are lovely! They really catch you by surprise. All round, a jolly good read! Leaving me with a feeling of happiness when I eventually put it down!

KurzbeschreibungOld fashioned in so many ways . . . Things really start heating up when Belinda is asked to remove a mirror from her shop window. Only to have it come crashing down soon after and shattering in to pieces. Would it mean seven years of bad luck?The moment Harrison walks in to the store and sets eyes on Belinda he is hooked. It was his lucky day. His decision is made. She would soon be his wife, the future Mrs. Scott.Their romance blossoms from a friendship in to a meaningful relationship. After a business trip Harrison cannot wait to get home. But the strangest twist of words changes everything. On the very same day that Harrison proposes to Belinda.Belinda is not about to apologize.
