**Von Dawn Cook : Lost Truth** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lost Truth:

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. the meeting of reader's expectations and many new surprisesVon hwmDawn Cook has a very special and rare

talent. Usually an author has sucked his world dry after some novels (especially the case with series, which have less beforehand planning than trilogies etc.). Events, that stir characters into a new direction and keep the action flowing seem forced (new cultures are introduced), characters lose their mystery, since you know everything about them and their past and the interesting and formidable enemies run out as well. Dawn Cook, however, picks up details in former books and manages to spin them into a completely logical new storyline without losing the vibrancy of her world or the spellbound attention of the reader. Frustrated with being chained to the hold and unable to choose between Strell and Lodesh, Alissa does the unthinkable again. Through a dream link with an adolescent master, she has found the lost colony half a world away. Accompanied by her suitors, Connen Neute and her pet kestrel Talon, she sets out to retrieve them. After a perilous sea journey Alissa has to realize, that not all of the masters are eager to return chief among them Keribdis, Useless wife. Animisities flare up, lost truths are being recovered and painful decisions made. Not only is Alissa forced to choose between Strell and Lodesh (even though the consumption of the marriage proves to be a tad more complicated than expected), she also finds out why the masters are on the verge of dying out and why the decision for or against another decimation of the human population hasn't fallen yet. For the time being LOST TRUTH is the last novel in the TRUTH series, a satisfying conclusion living of the strength of its characters and the long awaited wrapping up of (most) loose ends. At the same time it leaves enough room for the readers imagination and another novel.

0 von 1 Kunden fanden die folgende Rezension hilfreich. wunderbar! Von ein Kunde Ich habe alle vier Bcher verschlungen! Die Autorin schafft es die Figuren und auch die Story nicht langweilig werden zu lassen. Die Figuren erleben auch nicht einfach nur "noch ein Abenteuer" sondern entwickeln sich weiter. Ich wnsche mir mehr solche Fantasy-Bcher! ACHTUNG: man sollte dieses Buch nicht vor den anderen drei Bnden lesen! Es wird nmlich etwas verraten, was einiges in einem neuen Licht erscheinen lt.

Kurzbeschreibung Fourth in the sensational series featuring Alissa, a young student of magic whose rebellious nature puts her life in danger. From Booklist To wrap up the series including First Truth (2002), Hidden Truth (2002), and Forgotten Truth [BKL D 1 03], Cook gathers threads concerned with why the races of heroine Alissa's world are so severely segregated, what happened to the Masters who disappeared from the Hold long ago, which of her two suitors Alissa will choose (an itch readers have wanted scratched since Hidden Truth), and the riddle of the Masters' feral aspects and the critical role it will play in the future of Alissa's world. Alissa's dreams lead her to journey across an ocean and into the arms of Keribdis, who sees her as a threat to unchallenged leadership of the long-missing Masters. Enormously competitive and proud, Keribdis has an ironclad desire to control Alissa that may cost the young woman's life. Like its predecessors, this is delightful reading. Its cast of characters is small (a refreshing relief from the multitudes in other epics) and well limned, its world richly detailed, and its magic wonderfully believable. A terrific late-night companion. Paula Luedtke Copyright American Library Association. All rights reserved
