DissappointingVon Sandra GoldschmidtAfter reading Zoe Barne's other books "Ex-appeal" and "Bumps" I had rather high expecations in this book but unfortunately it couldn't keep up with her other books. While I would rate Ex-appeal

as an average good book I really loved reading "Bumps" but this book here is unfortunately not too brilliant. First of all the beginning's pretty slow, there are so many names showing up you get confused who is who and who's doing what. It took me 2 weeks to read the first 50 pages and also after that it didn't get too much better. It was an ok read then but everything that happened then wasn't a surprise, u could already guess who would be ending up with who. Especially the ending was boring again without ideas and a waste of time reading through it basically.0 von 2 Kunden fanden die folgende Rezension hilfreich. happy bookVon Pulpfiction99Laurel Page has had enough of men. Never the less she takes over the management of a dating agency. As you would guess she meets a good looking guy and of course feelings come into it too.But then it doesn't quite turn out as you would expect from the beginning.There are no big dramas or pages full of feelings, but it is a nice happy book that fills time perfectly.

KurzbeschreibungDon't get bitten...If love is a bug then Laurel Page is immune. Been there. Done that. Got over it. All she wants now is a quiet life. And while running a dating agency may not seem like the logical career path for a woman who has so fervently sworn off romance, for Laurel it's perfect. There's something deliciously safe about other people's romantic problems. Laurel's had enough drama in her relationships to last two life times. And then Gabriel Jouet walks into her office. Tall, dark and oozing with Gallic charm, he's an unlikely client and almost enough to make even Laurel contemplate abandoning her vow of singledom. Almost... But Laurel's scars run deep: Cupid really would have to be stupid to pick on her again...Pressestimmen'bloody good read' New Woman; 'Top ten book...feel-good escapism' Heat; 'Zoe Barnes writes wonderfully escapist novels, firmly based in reality' Express; 'An enjoyable and moving read...funny and likeable novel' Maeve Haran, Daily Mail; 'A great book for anyone who likes their romance laced with a healthy dose of real life' Options; 'entertaining and lighthearted' Observer; 'lively and compulsive' The Mirror; 'A good giggle' Essentials; 'Another great read from the best-selling author of Bumps, Hitched and Hot Property - what more could you want?'
