Hilarious - a very enjoyable readVon Karen O.This book focuses on Dee, freshly separated. Her grandma being one of the gray-haired knitting detectives, it does not come as a surprise that Dee is persuaded to file for a restraining order and the circles matchmaker tries to set her up with an adequate partner. When her estranged husbands body is found, she is the number one suspect.With Love in the Time of Murder, D. E. Haggerty has created another expertly worded and pretty funny suspense story with a romantic touch. The story comprises a broad variety of characters with sufficient depth, hilarious moments and interesting interactions to solve the murder case. I had a great time reading Love in the Time of Murder it is a very fun read. I was drawn into the story right away, chuckling about the cute gray-haired knitting detectives and their ways, not always seconding Dees thoughts. On second thoughts, I came to realise that my reactions in case of others trying to meddle with my life are not than different from hers.This is for you if you like female sleuths, hilarious situations as well as a great combination of (cozy) suspense, humour and romance.A funny and suspenseful book and/or series to read again.Recommended!4.3 stars
