**Von Carolyn Brown : Love Is** before purchasing it in order to gage whether or not it would be worth my time, and all praised Love Is:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. It's a keeper!Von Ein KundeA reader from Davis, Oklahoma It's a keeper! I am the author's daughter--but I do read lots of romance novels. (Our local librarian makes a game out of trying to find one I haven't read.) This book does all that a five star book should. It gets your attention right from the start and keeps it until the last tear drop falls and then some.

It made me laugh, made me cry and made me fall in love all over again. There aren't many books that I feel a need to own or to read a second time. However, I will be reading my signed copy many, many more times. It's a keeper-definitely. My favorite line-"walk slowly because I'd be along in a little while." Read it! You'll love it!1 von 1 Kunden fanden die folgende Rezension hilfreich. This book is a heart grabber!!!Von Ein KundeThis book was excellent. It reaches in and grabs your heart making you anxious to turn the next page. If you are a romantic soul, you will love reading Carolyn's books and will be searching for her everywhere. (P.S. She also writes under the pen Abby Gray.) PGR0 von 0 Kunden fanden die folgende Rezension hilfreich. I could not put it down. Great Book!!!Von Ein KundeThis book was extremely well written. It was a typical love story that you think you know what the outcome will be but it was written in such a superb manner that I could not put it down until I knew for certain. Cannot wait until the author's next book comes out!!!!

KurzbeschreibungAmanda Creole Hawk has been in a terrible automobile accident which has left her sightless for six weeks. After she goes through five caretakers in as many days, her father hires a Mr. Parker to take care of her and tells her that he will be the last. The sparks fly between Creole and Mr. Parker from the first minute they're in each other's company. During the five weeks they spend together, both of their hearts fail to get the message that they have been determined not to like each other. Then, Mr. Parker disappears on the very day that Creole gets her bandages removed and she finds her heart has been broken. But John Rollin Parker grew up with the headstrong Creole and he knows that she could never care about him, especially if Creole ever found out who he really was. Will he ever give in to his own heart and let her know?KurzbeschreibungAmanda Creole Hawk has been in a terrible automobile accident which has left her sightless for six weeks.
