Von Ellis Peters : The Virgin In The Ice (Chronicles Of Brother Cadfael) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Virgin In The Ice (Chronicles Of Brother Cadfael):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Another good mystery story from Ellis PetersVon Kali"The Virgin in the Ice" is one in a series of books about the monk Brother Cadfael. Based in Shrewsbury, this intelligent, shrewd and often resourceful monk sets about solving murders in 13th century England. "The Virgin in the Ice" follows the murder of a nun, the seeming guilt of a lovesick young

monk, and the arrival of a strange young man seeking out two fugitive children. Add to this a band of outlaws, a nobleman with a horrific secret, and you have the trappings for another good Brother Cadfael mystery that keeps you guessing until the last page. There is also a subplot that reveals a surprising secret about Brother Cadfael's Crusade past. If you want a series of books that are easy and enjoyable to read, then you can't go far wrong with Brother Cadfael. 2 von 2 Kunden fanden die folgende Rezension hilfreich. BEAUTIFUL WORDS Von Amanda Houston This was the first Ellis Peters novel I have read. I understand that she continues the Cadfael series, and I would be interested in checking out the other books. Brother Cadfael was an interesting mix of the world (due to his previous life outside of the ministry-as a soldier) and the Spirit. He was very smart, but was not my favorite detective. The thing I loved the most about this book was Ellis Peters' descriptions about people and situations. The description that struck me the hardest was the one of the woman's body Brother Cadfael found in the beginning. I'd like to conclude by saying that the historical information was invaluable as well. A mystery with a historical context is something I thoroughly enjoy! 1 von 1 Kunden fanden die folgende Rezension hilfreich. Another Cadfael Episode Von Antioch Andy This is another in Ellis Peters' Cadfael series. As period pieces, these books are quite good, and they make an enjoyable read on that basis. Brother Cadfael and the other ongoing Shrewsbury characters are well-drawn and believable. As mysteries, these stories are engaging if not always awfully difficult to figure out. Cadfael bases a lot of his sleuthing on his assessments of the character of other protagonists, which can sometimes make the plots a bit transparent. Also, keep in mind that the pace of life was considerably slower in the 12th century than it is today. Nowhere will you get the urgency or the sometimes frenetic pace of a John Grisham or Robin Cook tale. This can be a blessing, though. This particular installment is one of the better ones. It is a good light read for the general reader and is especially interesting for Brother Cadfael fans because of the extra insight into earlier events in his life. The who, what, when and where remain a puzzle until it all gets sorted out at the end.

Kurzbeschreibung During the bitter November of 1139, civil war brings refugees to Shrewsbury in search of sanctuary. But two orphans and their companion, a nun, do not arrive from Worcester as planned, and Brother Cadfael is despatched from the Abbey to try and locate them. Pressestimmen 'Charming and humorously told.' SPECTATOR Werbetext Philip Madoc stars as wily medieval sleuth Brother Cadfael in this BBC Radio 4 full-cast dramatisation.
