absolutely LOVE the characters of The Void Threatens Von Vanessa Hoffmann Being a German, I am particularly fond and aware of Nietzsche and how this book was influenced by him. If you read this novel with an open mind, putting away your stubborn worldview for however long it takes you to read (I consumed it within hours), you will be 'wow'ed by this excellent story. I have been waiting a long time to find a fantasy / scifi novel that will stun me as much as Tolkien or Goodkind. I literally read it without taking a break. As I already state in my title, the characters have drawn me in the most - really awesome and well-developed. 5 Stars!!

Kurzbeschreibung**SEQUEL "THE LIGHT BECKONS" NOW AVAILABLE**The Void Threatens is a dark and philosophical tale of epic proportions, done in a creative and entertaining way that promises to keep you coming back for more. Its the result of combining the existentialism of Friedrich Nietzsche and Sren Kierkegaard with the classic high fantasy of J.R.R. Tolkien. Impossible cities flourish in this world, and violent racism thrives and fuels a slavery industry that plagues the land. When a mysterious race of beings threaten the entire world, flawed and authentic people are forced to rise up and challenge these godlike foes. At its core, The Void Threatens is a tale of overcoming evil both on the outside and within. The void threatens everyone; will anybody be able to stave off the evil in this fallen world?
