Von Tony Hillerman : The Wailing Wind (A Leaphorn and Chee Novel) before purchasing it in order to gage

whether or not it would be worth my time, and all praised *The Wailing Wind* (A Leaphorn and Chee Novel):

KundenrezensionenHilfreichste Kundenrezensionen4 von 6 Kunden fanden die folgende Rezension hilfreich. Gute Entwicklung eines altbekannten VerhältnissesVon KGBeastIn diesem Roman zeigt sich wieder einmal sehr deutlich, wie stark sich das Verhältnis zwischen den beiden Helden seit ihrer ersten Begegnung in *Skin Walker* verändert hat.Durchsetzt mit Hinweisen auf das Leben der Navajos im 21. Jahrhundert und mit Bezügen auf vorhergehende Bücher, geht die Geschichte einen gewundenen und interessanten Weg und endet in einer eher tragischen und überraschenden Art und Weise, die gleichzeitig auch auf wichtige Entwicklungen hinweist, die sich bestimmt im Folgeband *The Sinister Pig*, der ab Anfang Juni 2003 erhältlich sein soll, fortsetzen.1 von 1 Kunden fanden die folgende Rezension hilfreich. "Two warriors help a dragon fly out of the mud."Von BernieRookie Navaho police officer Bernadette Manuelito is making her round when she spots what looks to be an abandoned truck. Upon closer inspection she finds what appears to be a drunk sleeping it off in the seat. Yep you guessed it when she touched him he was cold, dead cold.All of our old palls from previous novels converge on the scene that turn out to be a homicide as the individual was shot in the back.As the story progresses we get the thing that makes Hillerman, Hillerman; there are graphic descriptions of the landscape and weather. We also get a small indoctrination into the Navaho way as a shaman and an old man are interrogated. Yes and there is also a love interest or two as scene mostly through the eyes of Joe Leaphorn, Jim Chee, and suspect Wiley Denton of who seems to have misplaced his wife..I suggest that just before you read this or while you are reading this that you also have a copy of the book "Hillerman Country: A Journey Through the Southwest with Tony Hillerman" It is a book filled with the pictures of the areas mentioned in this book (Including the torques mountain.)You can tell that this book was written later on the series because the characters refer back to earlier times and other mysteries. The references are casual enough that if you had not read the other books you would not notice them.As with most Hillerman novels the answer to the main riddle is usually immediately or soon figured out so we have fun finding out how long it will take the characters to catch up. Many a time different characters have clues and do not compare in time to act.4 von 5 Kunden fanden die folgende Rezension hilfreich. KurzbeschreibungTo Officer Bernadette Manuelito, the man curled up on the truck seat was just another drunkwhich got Bernie in trouble for mishandling a crime scenewhich got Sergeant Jim Chee in trouble with the FBIwhich drew Lieutenant Joe Leaphorn out of retirement and back into the old "Golden Calf" homicide, a case he had hoped to forget.Nothing had seemed complicated about that earlier one. A con game had gone sour. A swindler had tried to sell wealthy old Wiley Denton the location of one of the West's multitude of legendary lost gold mines. Denton had shot the swindler, called the police, confessed the homicide, and done his short prison time. No mystery there.Except why did the rich man's bride vanish? The cynics said she was part of the swindle plot. She'd fled when it failed. But, alas, old Joe Leaphorn was a romantic. He believed in love, and thus the Golden Calf case still troubled him. Now, papers found in this new homicide case connect the victim to Denton and to the mythical Golden Calf Mine. The first Golden Calf victim had been there just hours before Denton killed him. And while Denton was killing him, four children trespassing among the rows of empty bunkers in the long-abandoned Wingate Ordnance Depot called in an odd report to the police. They had heard, in the wind wailing around the old buildings, what sounded like music and the cries of a woman.Bernie Manuelito uses her knowledge of Navajo country, its tribal traditions, and her friendship with a famous old medicine man to unravel the first knot of this puzzle, with Jim Chee putting aside his distaste of the FBI to help her. But the questions raised by this second Golden Calf murder aren't answered until Leaphorn solves the puzzle left by the first one and discovers what the young trespassers heard in the wailing wind..deA lost gold mine, a corpse in an

abandoned pickup truck, and an eerie wailing heard on Halloween are among the delicious plot elements Tony Hillerman cooks up in his 15th novel featuring Joe Leaphorn and Jim Chee. The two Navajo cops, one old and one young--who originally debuted in separate series but have been collaborating for many books now--are among the most engaging, fully human characters in crime fiction. As usual, Hillerman puts them to work in a suspenseful, satisfying tale that integrates a wealth of Navajo lore plus breathtaking evocations of the American Southwest, all delivered in prose as clear, clean, and easy-flowing as a mountain stream. Longtime readers will be delighted by several developments, including a prominent role for the appealing Officer Bernadette Manuelito and a glimpse at the phlegmatic Leaphorn's testy side. But Hillerman welcomes new arrivals as well, with enough exposition to get you oriented. Many writers have tried to follow Hillerman's trail, setting murder mysteries in Native American cultural landscapes. Many do a fine job. But, as *The Wailing Wind* beautifully demonstrates, there's only one Tony Hillerman. In this book he's at the top of his game. --Nicholas H. Allison

Pressestimmen Hillerman has become a national literary and cultural sensation. (Los Angeles Times) Tony Hillerman is a wonderful storyteller. (New York Times Book Review) Hillerman repeatedly shines in this masterfully complex new novel. (Publishers Weekly (starred review)) Gale force hit! (People)
