and folks around are nice and fun and have interesting stories. Only the ending had let me wishing it would be a little bit more ... more ... just something more. It was going too easy (even though I loved the teenager part! :-)) and left me wanting a clearer happy end. That would even take two stars down for me but rest and the other characters were so well written that it kept me on four ;-)! Fun story with lovable characters it is - four stars and a recommendation! Edit - I actually came back to give it five :-) ... first because the romance is not bound to end to my liking :-). And second, because one thing stick with me - the main heroine decision not to do dull things ... so I am implementing her enthusiasm into my "chores" :-). Thanks for this, dear Sylvia!

And a few event might not really be realistic. Not realistic from a objective point of view or avoidable if the person would be thinking straight or had some common sense. Which she doesn't because she never had to deal with the real world and her world just fell apart. I did like to read the book and find out more about the main character. And if fate wouldn't change a story in a few places it would not be a good story to tell. It would be boring. I liked to cheer the "bride" on when she doubted herself and to groan in frustration whenever she was just unable to grasp what was right in front of her. The happy end was a little bit fast and abrupt for me as well. But why should the author stretch this out if the groundwork has been set?

Aber den Bchern, bei denen mir sogar ab und zu warm wird ;) muss ich einfach noch den einen extra Punkt geben. Ich konnte einfach diese Spannung zwischen den beiden Hauptfiguren spren, und das Schtze ich bei einer leichten Wochenendlektre sehr.
