KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Filthy Gaijin!Von A. RossThe third in the Japanese historical series, this one takes Sano Ichiro from Edo to Nagasaki on an inspection. It's 1690 and Nagasaki is the one place where barbarian traders (the Dutch East India Co.) are permitted to come and trade. Sano is quickly embroiled in investigating the death of the head of the Dutch trade mission, which

spins off into smuggling and possibly an illegal Christian underground. As usually, there is a lot of interesting history and social custom imparted in the course of the whodunit, which is good, 'cause Sano's inner conflict and the actual mystery aren't all that compelling in and of themselves.0 von 0 Kunden fanden die folgende Rezension hilfreich.  
suspenseful foreplay  
Von Ein Kunde  
Sano is a detective who is torn between a world, which is attempting to maintain its identity and at the same time deal with modernity. Sano's character embodies the conflicts between these two worlds, however, his true master is the quest for the truth. Similar to the Shinju, Rowland's earlier book, Sano has to overcome overwhelming odds in order to solve a murder however this time finds himself uncovering governmental corruption. Rowland has mastered the art of historical accuracy and suspenseful foreplay.

In 1690 Nagasaki, Sano must crack his most sensitive case yet as he sets about to discover who killed a Dutch trader whose body has washed up on the shore of a small island famed for its "barbarians."
