Von Colin Dexter : The Way Through the Woods (Inspector Morse Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Way Through the Woods (Inspector Morse Series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Colin Dexter is a superlative mystery writerVon Ein KundeFor those of you who are only familiar with Colin Dexter's character of Chief Inspector Morse through the AE mysteries series, I say unto you READ THE BOOKS. Colin Dexter has created a series of mystery novels that will appeal to even the most cynical of mystery fans.Although he

did not start writing until after his career as a University Professor, he has made up for lost time with a vengeance. The character of Morse is superbly drawn. A razor sharp mind that has all the human failings common to all of us. The twists in his novels are truly diabolical and show an insight into the human condition that is both disturbing and familiar. I realize that this is a review more for the body of work that constitutes the formidable Inspector Morse, but I feel so strongly about his work and, seeing no other reviews here, felt the need to point out a very important fact: If you buy a Colin Dexter novel, you will not be disappointed. 0 von 0 Kunden fanden die folgende Rezension hilfreich. An excellent story Von Steve Kaye Has there ever been a more perfect marriage between character and actor? As ever, discussing any of the Morse books is impossible without discussing the actor who portrays him. The two are linked (in my mind, at least) forever. In this title, Morse is his quintessential self and calls to mind Jonathan Thaw. As usual, the mystery is good, Morse's ego is exquisite, and the writing is engaging. Here is one series where watching the videos does not detract from the source material. In fact, knowing John Thaw's Morse serves to heighten enjoyment of reading the books. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Dull Von Ein Kunde It took me more than 2 weeks to finish this book. The story is excruciatingly slow-paced for the first three fourths of the novel, and only starts to capture the reader's interest in the last quarter or so. There, the author finally starts accelerating the pace, throwing in some interesting twists. The plot is tied up neatly and the explanation is satisfying, but by the time that happens you really don't care anymore.

Kurzbeschreibung Quietly, rather movingly, Strange was making his plea: 'Christ knows why, Lewis, but Morse will always put himself out for you.' As he put the phone down, Lewis knew that Strange had been right . . . in the case of the Swedish Maiden, the pair of them were in business again . . . They called her the Swedish Maiden - the beautiful young tourist who disappeared on a hot summer's day somewhere in North Oxford. Twelve months later the case remained unsolved - pending further developments. On holiday in Lyme Regis, Chief Inspector Morse is startled to read a tantalizing article in The Times about the missing woman. An article which lures him back to Wytham Woods near Oxford . . . and straight into the most extraordinary murder investigation of his career. From Publishers Weekly One of Britain's most inventive and honored crime writers, Dexter (The Jewel That Was Ours) offers another tale in a justly acclaimed series. Again it's a story packed with nuance, wayward angles and bewildering layers of coincidence, all explicated in masterful style. When Oxford-based Inspector Morse sets out to find Karin Eriksson, a young Swedish woman who disappeared while vacationing in England, he opens a Pandora's box of clues and culpability. The missing woman's need for money, four men's need for pornography, and photographs, blackmail and multiple disappearances all play their part in this deliberately baffling mystery, in which virtually every chapter ends on an enigmatic note. Dexter even manages to cunningly subvert the narrative's basic framework toward the end, when Karin Eriksson's identity comes into question. The erudite, irascible Morse remains a delightful character, with his shambling existence, his love for music, his obvious appeal to lonely women despite his slovenly appearance. His pedestrian, loyal subordinate, Sgt. Lewis, buys most of the beers Morse consumes en route to the ultimate solution. Publication of this stunning work will coincide with the broadcast of another Morse adventure on the PBS Mystery! series. Copyright 1993 Reed Business Information, Inc. From Kirkus s Vacationing Chief Inspector Morse's eye is caught by a Times story about an anonymous poem evidently referring to the year-old disappearance of Swedish student Karin Eriksson. A lively, densely allusive correspondence analyzing hints in the poem eventually takes Morse (The Jewel That Was Ours, 1992, etc.) to the Oxford town of Wytham, where a body is indeed discovered. But then the real surprises in this captivating tale begin, as the evidence of the corpse, a telltale roll of film found nearby, and the ring of amateur pornographers implicated in the murder obstinately refuse to confirm Morse's most elementary assumptions. Honest detection, illicit sex, puns and anagrams galore, Morse's trademark drinking and dour byplay with colleagues and suspects, plus a plot as agile as Dexter's best--in short, everything you could possibly want in an English detective story. Bolt the door and enjoy. -- Copyright 1993, Kirkus Associates, LP. All rights reserved.
