AwesomeVon LoveToReadI've read a few other books by Jaye, and this one did not disappoint! A thrilling page-turner, the book has it all: historical, sex, love, betrayal, and sacrifice. Well-written with descriptive characters you will love. Im not one to give out spoilers, so will not elaborate. I thoroughly enjoyed this read and give the author high marks. Highly recommend and looking forward to the next book.0 von 0 Kunden fanden die folgende Rezension hilfreich. Enjoyable readVon Grace WedelThis is not the first book I have read by this author and it is equally as fascinating as the previous ones I've read. This story is a gripping tale of letting go of love in order to please the family and the consequences that follows. The characters are well fleshed out in a way that appeals to your feelings for the central character.0 von 0 Kunden fanden die folgende Rezension hilfreich.
