Von Val McDermid : The Wire in the Blood (Tony Hill and Carol Jordan, Book 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Wire in the Blood (Tony Hill and Carol Jordan, Book 2):

SteinbachThe story is really capturing, it has a couple of unexpected turns, the characters are plausible and well developed. But as I have not read "The mermaids singing" beforehand, I was left

with an odd feeling of having missed a part of the characters' past, I could not really situate the whole background (like the relationship between Tony Hill and Carol Jordan or a couple of flashbacks)The only thing I was a bit disappointed by is the quick end of the story, there is no real climax before the catching of the villain, no last struggle between the two opposing minds. Maybe I was stuck in a cliché, maybe the story would have had too much resemblance to the first book? Otherwise I would surely have rated the book with 5 stars, I can only recommend it!8 von 10 Kunden fanden die folgende Rezension hilfreich. ExtraordinaryVon Ein KundeThis book is extremely exciting. Once started, you can't put it down. Especially when you have read "A mermaid's singing" first, the characters seem familiar and you can really live the book. However, the tortures being used by the killers in both books are really hard and frightening and may cause sleepless nights and bad dreams.0 von 0 Kunden fanden die folgende Rezension hilfreich. ich liebe die Tony Hill Geschichten, aber...Von Marcella HeerIch fand die Geschichte um den Serienmörder Jacko Vance sehr spannend. Was mich stört, an allen Tony Hill Romanen, ist stets der zweite Handlungsstrang.Natürlich ist es realistisch, dass eine Polizei mehr als einen Fall zu bearbeiten hat. Aber in einem Krimi mag ich das nicht. Die ganze Geschichte um den Brandstifter hat mich daher gelangweilt und ich habe sie abgeblättert, damit ich mit der eigentlichen Geschichte fortfahren konnte.

KurzbeschreibungVal McDermid's Number One bestselling crime series, featuring psychological profiler Dr Tony Hill and Jacko Vance protagonist of new novel THE RETRIBUTION in the suspenseful and ferociously readable thriller that led to the much-loved TV show.Young girls are disappearing around the country, and there is nothing to connect them to one another, let alone the killer whose charming manner hides a warped and sick mind.Dr Tony Hill, head of the new National Profiling Task Force, sets his team an exercise: they are given the details of missing teenagers and asked to discover any possible links between the cases. Only one officer comes up with a theory a theory that is ridiculed by the group until one of their number is murdered and mutilated.For Tony Hill, the murder becomes a matter for personal revenge and, joined by colleague Carol Jordan, he embarks on a campaign of psychological terrorism a game where hunter and hunted can all too easily be reversed.Pressestimmen'The book [has] a sense of gravitas and intelligence utterly beyond lesser writers in the field ...
