She likes everything organized and in its place. But when her three aunts send her a cryptic message, Kristin drops everything and rushes to their bungalow in Mission

Beach. The aunts are almost finished packing. They are going on a world cruise. Kristin is shocked; however, that is only the beginning of how Kristin's organized world crumbles around her. Aunts Rose, Lily, and Hyacinth tell Kristin that they are fairy godmothers and the Time of Transition is at hand. During the Time of Transition, the magical (Arcani) world is at its weakest. The old fairy godmothers start to lose some of their powers, and the new ones are not used to theirs yet. New Council members (who govern the magical world) are chosen and others must step down. Kristin, according to the aunts, is the one they have chosen to become their replacement. Kristin is soon having to deal with her own burgeoning magical powers. Tennyson Ritter is a brilliant wizard. He is in the midst of studying an ancient book of Merlin's that he had only recently found. (It had been lost back in the Dark Ages and believed to only be a myth until now.) The last thing Tennyson has time for is being the arbiter of a new fairy godmother. As arbiter, he must observe Kristin, help her learn about her powers, and judge whether she is able to handle such a responsible position. Unfortunately for Tennyson, Kristin is a Rare One. Though her deceased parents were both Groundlings (non-magical humans), Kristin is Arcani (a magical human). Kristin never knew she had magical powers waiting to erupt during the Time of Transition. She never believed in magic. And she is having a hard time believing all that happening to, and around, her. But between the rude Tennyson and her new friend, a tiny sprite named Callie, Kristin just may get the hang of it all. Problem is that during this vulnerable time of the magical world, an enemy of the Arcani has returned for vengeance. \*\*\*\*\* FIVE STARS! It is hard for me to believe that this is the author's debut novel. It is an incredible story filled with romance, suspense, and some utterly delightful magical beings. Fans of the classic television show Bewitched will especially enjoy this trilogy. The character of Kristin reminds me strongly of Samantha. I want MORE! \*\*\*\*\* Reviewed by Detra Fitch of Huntress Reviews. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Fun and lighthearted tale Von Helen Hancox The cover of this book - with a little fairy and a woman holding a wand - gives a bit of a clue to the subject matter: our heroine, Kristin Montgomery, discovers one day that she is actually a Fairy Godmother. What this means isn't clear to her initially (or to us the reader), but she has been assigned a magical arbiter - a sort-of trainer and mentor - to help her learn her role. He is called Tennyson Ritter and isn't particularly keen on his new task as he was in the middle of some scholarly studies. Tennyson and Kristin don't exactly hit it off straight away and Kristin finds new experiences and information hitting her from all sides. Her new friend Callie the fairy, Lucas the sorcerer and of course her mad aunts can't tell her exactly what she should be able to do and how to do it - it appears she has to find most of this stuff out herself. But there's more going on than a new Fairy Godmother finding her feet. Kristin might just find that she's more important to some people than she has previously realised. This book was good fun from start to finish. There was a good mix of characters, Kristin was a good heroine and the plot was interesting. I felt the sex scene that occurred felt a bit unnecessary at that point in the story - it was as if the author had been told she had to have a sex scene by chapter 8 and so she put one in but I felt it was too soon in the story and didn't add anything to it - possibly the opposite. However, once the story had moved on a bit more and the relationship between the characters felt more grounded the story picked up well and I enjoyed it. I have a slight issue with witch/wizard/sorcerer stories which is that the reader is never actually sure what the witch/wizard/sorcerer can do in terms of their powers. They may find themselves in a locked room but for all you know they can easily teleport out or blow a hole in the wall or whatever. In this story there were a few cases where there was an easy magical way out of a situation, although the author also put in a number of interesting non-magical options too. Overall this was a very good story and it was written as if it was the first in a series. I hope so as it was good fun! Originally published for Curled Up With A Good Book Helen Hancox 2012

Kurzbeschreibung Kristin Montgomery is more than a little shocked when her aunts inform her they're fairy godmothers. Worse, after dropping that bombshell they hand her a wand and head off on a world cruise. Now Kristin's uncomplicated life as a CPA in San Diego has disappeared like magic and she not only has to deal with her burgeoning magical powers, but also a reluctant and distractingly sexy magical arbiter. Tennyson Ritter is a historian. A scholar by choice, he is yanked from his studies to act as arbiter for the newly chosen fairy godmother. He doesn't want to waste his time with a woman who doesn't know anything about magic or the magical world, but soon the beguiling Kristin draws him away from his books and into her life. But before Kristin can hone her skills and pass the tests necessary to fully claim her powers, she and Tennyson must work together to defend the world both magical and human against those that would claim her powers for their own. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. Pressestimmen Will appeal to fantasy fans and contemporary romance lovers alike.
