Love takes work. It requires commitment and patience, as well as understanding and perseverance. It can be bumpy and shake the foundation of your whole being. It can require not only compromise, but sacrifices. But if it is real love, true love, it is worth all of that. It is worth fighting for and in the end, the reward is bigger than anything you could have ever anticipated.This is

the type of love that binds Elisa and Julian in Marie Hall's "The Wright Brother". Their love might have always been there, but their relationship doesn't come easy. Too many things stand in their way and the trials their love must face unfortunately are anything but few and far in between. From the start things are complicated and difficult, partly due to their own hang-ups, partly due to the circumstances. And every time they get together, they seem to end apart again. They make mistakes on the way and hurt each other profoundly. Yet, life without one another doesn't seem possible either. They love each other with a fierceness and passion way beyond their years. Julian always seeming more secure of their relationship. But that doesn't mean that Elisa loves him any less - her fears are just stronger than his and she's the one that has more to lose. Elisa is a young woman who has known the Wright brothers basically all her life - sharing many experiences with them until a tragedy struck their family. Always having felt a special bond with Julian, feelings intensify when he returns into her life. Yet, she can't get over the age difference that separates them and therefore forces her feelings aside, trying to live a life without him in it. This only leads to heartache, mistakes and bad choices, that not only hurt her and Julian, but leave others in pain as well. Once she finally allows herself to admit her feelings, she can be really happy for the first time in her life. But she wouldn't be a young, confused woman if she didn't unnecessarily complicate things at times. It would have been easy for me to be irritated by her and look down upon her for the mistakes she has made. But Marie Hall's writing allowed me to feel the turmoil that Elisa was feeling and suddenly it was easier to understand how she could sometimes get so lost - losing herself and the right way for her. How she could question her feeling and decisions that seemed so clear to me as a reader. At times she was completely drowning in her emotions, not seeing clearly what was in front of her, what really mattered. It nearly took losing the only happiness she knew for her to come to her senses. Julian on the other hand always knew what he wanted and his feelings never wavered. That doesn't mean he didn't make mistakes born from the intention to make Elisa's life easier and happier, even if it shattered his own chances at happiness. He loved Elisa with such unwavering ferocity, it took my breath away. Though younger than her, he seemed to be years ahead of her when it came to his feelings. I guess experiencing the world in such different ways than others, he was forced early to know what he wants and to fight for it. It so happened that he wanted Elisa. He never gave up the fight, knowing they are meant to be. But all the fight in the world isn't enough, if the person you fight for isn't willing to fight as well. So despite his love, he learns that sometimes you have to let someone go, for them to come back to you. Both characters were unique, just like people are in real life. They could live next door to you or me. Elisa, the goody-good girl with competitive swimming as her passion and the perfect parents in a perfect home was such a contrast to Julian, the boy whose life was a challenge from the start and who experienced a tragic loss that shaped him. A young man that doesn't comply to the rules, instead dares to be who he is - a nice guy with a wild side, with tattoos, piercings in the most delicious places and a passion for life. In my opinion their love story is epic. And if you want to know if there is a reward at the end of their journey, you better get reading. 5+ epic love-story stars. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Ergreifende Liebesgeschichte Von Andreas Alexandra Schicksal ist, was du daraus machst... diese Geschichte zeigt wunderschön, traurig und lustig und mitreißend, wie eine Beziehung entsteht und wächst. Man will das Buch gar nicht mehr aus der Hand legen. Absolute Leseempfehlung!

Kurzbeschreibung From the moment I opened my eyes I could only see the world in shades of gray. There was no noise, no sound, nothing. Deaf and colorblind, I was a freak. My world was bleak, silent and empty, until her. Until I met my neighbor, Elisa Jane Adrian. I want her. I need her. The fractured part of me feels whole when she's around. Like the world isn't so dark, isn't so bleak, and so still. I know it's impossible, but when I look at Elisa I swear I can see color, can hear the gentle inhalations of her breath. I know she feels it too, this magic, this desperate desire... I first saw him when I was three. Julian Wright was different than any other guy I'd ever known. He sees the world in a way I know I never will. But he intrigues me. The way he looks at me with his sea green eyes, how he hypnotizes me with his smile. It's dangerous these feelings I have for him. Reckless and stupid. I'm so much older than him, I know better. And I'll fight these desires, no one will ever know how I feel. I'll even pretend to myself that I'm not as hooked on him as he is on me. I'll move away to college, I'll forget him, but that's the thing about the Wright's, they have a way of getting under your skin, into your soul, and no matter the time or distance, once a Wright sets their eyes on you, there's no going back... ever.
