to you\*I've never read another book of Sorensens but I couldnt put this one down until i finished it. I wanted to know more about Isabella - what really happened to her? Why is everyone so mean? There has to be some twist - I know it -- thats how Sorensen kept me reading till the break of danw :DI wanted to know to whom Isabella would turn to? Kai or rather Kyler? I just wanted to know everything... And let me tell you something. This story doesn't fall short on the suspense line. It's beautifully wirtten and it's not your typical YA story line (even though I m not complaining bout those, cause I love those football/hockey/college stories as well!) and I just had a connection with Isabella, I guess.I loved this one and couldn't wait for the second installment in the series!
