Cotterill's Gems
Von Roman Staub
I am currently reading the eighth Novel of the Dr Siri Series (Slash and Burn). I am glad I discovered Colin Cotterill thanks to a work mate. The Dr Siri Novels are a mixture of (sarcastic) realism, fantasy and humanism, underpinned by a detailed knowledge of Indochina history of the 1970's. All the books are highly entertaining.

Erfreuliche Fortsetzung von "Coroner's Lunch" mit den bereits lieb gewonnenen Charakteren Siri Paiboun, Dtui, Mr Geung, Civilai, und anderen. Die Geschichte ist phantastisch, aber durchaus realistisch, mit komplexen Details und liebevoll ausgearbeitet. Ausser die Schokolade für Saloop, die ist giftig für Hunde. Man konnte viel lachen, viel Situationskomik. Ich habe das Buch extrem gern gelesen und freue mich schon auf den nächsten Band!

Vergleichen Lese-Spass, ich werde sicherlich die folgenden Geschichten auch lesen. Die Figuren sind sehr lebendig, die Atmosphäre dicht, man leidet auch im deutschen Nieselregen mit unter der Hitze in Laos - allein die Stationen im Leben von Dr. Siri sind so bizarr, die Lungen, die der Mangel im Land erfordert, grandios.....

Kurzbeschreibung
Siri Paiboun is suddenly a busy man. Five months into his new role as National (and only) Coroner, he has been called to the capital on a 'matter of national security'. Soon enough, he's examining carbonized corpses, meeting the deposed king and attending a shaman's conference. Meanwhile, back at his woefully inadequate morgue, savagely mauled bodies are piling up and Siri's assistant decides to investigate. Can she be dealing with a weretiger, or is it a bear of some kind? Whatever kind of animal has thirty-three teeth?
Pressestimmen
The story is good, the characters interesting, the hero delightful and the setting fascinating: a find - Literary An embarrassment of riches: Holmesian sleuthing, political satire, and droll comic study of a prickly late bloomer - Kirkus (starred review)
A wonderfully fresh and exotic mystery - New York Times Book
