**Von Marie Hall : This Time (Moments Series Book 3) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised This Time (Moments Series Book 3) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Very enjoyable but not as perfect as the first bookVon JohannaSo this the third Moments book now and I can honestly say that I loved them all. I think A Moment was the best for me but Right Now and This Time aren't very far behind. This is Tor's story who's a colleague of Zoe's at the tattoo parlor. Tor has been in love with a girl from afar for years now

and finally he gets his moment. But this wouldn't be a Marie Hall story if there weren't major problems they have to overcome. Jamie is deeply involved with Angel who has ended up in hospital once again because he was driving on cocaine while making out with some random chick. She is so devastated and drained of all her caring-for-Angel-energy that she doesn't immediately rush to the hospital but decides to meet with Zoe and Alex at a bar. There, she meets Tor and their Moment finds a rough start. Tor was just too good to be true. He is this stunning Norwegian sex god who is huge but so tender and gentle at the same time. He wants to show Jamie that he'll never abandon her, that she's worth to be loved and that he can be more reliable than anyone has ever been in her life before. I'm just sure that in my mind he looks completely different to the image that Hall wanted to create. Because I could never ever, not even over my dead body, find a man with whiskers sexy. No way. So I just had to make up my own image of him, which was no problem at all. \*wink\* I guess the only problem I had was with Jamie. Me and her are not exactly alike. Her selfless acts with Angel were only annoying for me. I don't think I would have ever felt obliged to waste away my life just for him. I mean they were a freaking high school couple and nobody would expect her to still be there for him all the time when he's nothing but destructive and disrespectful. I can't imagine a young girl being so loyal leading almost to self-destructive behavior. That reminds me a little bit of Rock Bottom and even there Danika knew when to stop the relationship, and those two at least had still something going on. As always, Marie's writing is wonderful and I read through it quickly. Yet, I think I was more invested in the first two stories. All the stuff in the middle wasn't too exciting but it gripped me again in the end. Overall, I liked Tor and Jamie's story a lot and I'm very curious who her next couple is going to be. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Extra-ordinary and beautiful... Von LittleDarling I loved the "Moments" series from the first words I read in "A Moment" and after reading "Right Now", I couldn't wait to read more about Tor as I fell in love with his character. "This Time" solidified his place as one of the greatest book boyfriends ever. Tor, who years ago moved from Norway to the US, definitely will remind you of a Viking or a Norse God. Strong and protective, he is also sweet and tender. He is a gentle giant that isn't scared of his emotions and of showing them. He isn't afraid of loving although due to his past he would have every reason to. The confidence to be who he is, to not compromise, to allow himself to feel and be true to those emotions, makes him not only super out-of-this world swoon-worthy but also sexy as hell. He knows his priorities and is his own person - always true to himself. There is nothing, and I mean nothing about him to dislike. It doesn't mean he might not have any flaws, but they are damn hard to notice or care about. He might be the most perfect book boyfriend ever written - perfect without being irritating or unrealistic. I really don't think my words can do him justice. The way he loves Jamie - wholeheartedly and unconditionally without disregarding his own feeling, the way he treats her with devotion and reverence and utmost respect, it melted my heart, took my breath away and made me smile so big I feared my face will split in two. Despite his past he isn't bitter or cold, but instead emotionally available and open. He is all male and yet sensitive. He does the sweetest things without being corny and his actions, feelings and thoughts made me melt like ice-cream on a hot summer's day. Really, I could go on gushing about him for hours and yet, I wouldn't manage to paint a picture that is true to his character. Jamie, on the other hand, I was prepared to dislike. She seemed all hung up on her on-and-off waste of a space boyfriend and my first instinct was to slap her for using Tor. Damn, was I proven wrong. Unlike my assumptions, she isn't one to play with anyone. She is just an extremely loyal girl, who out of guilt and a sense of obligation sacrifices her life and happiness for a love long gone wrong. She has a hard time letting go of what has been her dream for a fairytale future, disregarding the fact that the frog is no prince and that the fairytale has turned into a nightmare. It is not that she is ignorant to reality. But sometimes it is hard to accept the truth, despite seeing it clearly. And that is the situation Jamie is in. Torn between her longing for happiness and the guilt that keeps her stuck in a toxic and unhealthy situation, it takes Tor thundering into her life and after one night of passion flipping it upside down, for her to consider that life has to offer more than constant misery and agony. And with a complete new future that fate forced upon her, step by step she finds the motivation to let go of the guilt and obligation that keeps her captive and to allow Tor to win her heart. With every touch, with every word he proves to her, that he is there for her no matter what and shows her that true love is beautiful, sweet and gives instead of just taking and destroying everything in its path. She realizes it is important to let go of the past in order to have a shot at a future. And for Tor she is willing to do just that. She learns to let him into her life and into her heart. Despite their pasts, they both get a second chance at love and it is beautiful, yet bittersweet at the same time. The way they are with each other touched my heart with its sweetness and brought tears to my eyes. The love they share made me weep and sob at times - even more so when they share their feelings with us readers at the end of the book. They might be scarred, but not broken by their pasts. But sometimes the past worms its way back in and Jamie's past threatens to destroy the second chance her and Tor got, threatening their happiness and their future. True love is worth fighting for though and fight they did. Do yourself the favor and don't miss out on this beautiful, bittersweet love story and let the gentle Viking win your heart. 5+ emotional, true-love-that-is-worth-fighting-for stars.

Kurzbeschreibung A phone call that changed our lives... I've lived my life in a daze, trying to save someone hell bent on

destruction. But when my phone rings and I'm told that Angel, my on again off again boyfriend has OD'd for the second time in two years, I'm so numb. So tired. So when Tor Boler, the sexy Norwegian and drummer of Fok asks me to stay with him, I stay. We were friends and I needed to be held. To be loved. It was just supposed to be one night of reckless passion. One night where I could forget how screwed up my life had become....a night of passion with far reaching consequencesI've wanted Jamie Sullivan since the day she walked through my tattoo shop eight years ago. There's a soulfulness to her blue eyes that reminds me of the arctic fjords of home. She calls to me. There's only one problem standing in our way- Angel Romero. I want her, and she wants me too, she just doesn't realize it yet.This time... we'll get it right.KurzbeschreibungA phone call that changed our lives...I've lived my life in a daze, trying to save someone hell bent on destruction. Preferably both. And while she's a total girly girl and loves glitter and rainbows, she's just as happy when she's writing about the dark underbelly of society. Well, if things like zombies, and vampires, and werewolves, and mermaids existed. (Although she has it on good authority that mermaids do in fact exist, because the internet told her so.) She's married to the love of her life, a sexy beast of a caveman who likes to refer to himself as Big Hunk. She has two awesome kids, lives in Hawaii, loves cooking and occasionally has been known to crochet. She also really loves talking about herself in the third person. If you want to see what new creations she's got up her sleeves check out her blog: [www.MarieHallWrites.blogspot.com](http://www.MarieHallWrites.blogspot.com) or contact her personally at [mariehallwrites@gmail.com](mailto:mariehallwrites@gmail.com)
