Von Eileen Goudge : Thorns of Truth: The Sequel to Garden of Lies (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Thorns of Truth: The Sequel to Garden of Lies (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. As good as the prequelVon Ein KundeOver four decades have passed since that hospital fire led to the switching of two newborns. Now forty-six, one of the switched babies, Rose Santini Griffin, is deeply grieving the loss of her husband

by burying herself in her work. Her oldest son, Drew, is engaged to Iris, the daughter of Rachel MacClanahan. Rachel is the other switched baby during that fire. A guilt-laden Sylvie is dying. She is the biological mother to Rose who switched the infants, and raised Rachel as her own. She has hidden her transgression from everyone, including her spouse. Outside of Sylvie, only Rose knows what happened during the confusing hospital fire. She has vowed not to reveal what she knows because she does not want to hurt her friend Rachel. However, knowing that she is dying, Sylvie feels compelled to reveal the truth, but hesitates for fear of what it will do to everyone she holds dear. The sequel to GARDEN OF LIES, THORNS OF TRUTH, holds up to the quality level of the first novel. The continuation into middle age of the two criss-crossed women is brilliantly described due to the strong characterizations, including the secondary players. The story line is a classical tear jerker that requires a fresh towel for every fifteen pages (a handkerchief is not big enough for all the weeping). Readers will gouge on Eileen Goudge's gut wrenching, heart warming tale. Harriet Klausner 0 von 0 Kunden fanden die folgende Rezension hilfreich. Better Than the prequel Von Ein Kunde Over four decades have passed since that hospital fire led to the switching of two newborns. Now forty-six, one of the switched babies, Rose Santini Griffin, is deeply grieving the loss of her husband by burying herself in her work. Her oldest son, Drew, is engaged to Iris, the daughter of Rachel MacClanahan. Rachel is the other switched baby during that fire. A guilt-laden Sylvie is dying. She is the biological mother to Rose who switched the infants, and raised Rachel as her own. She has hidden her transgression from everyone, including her spouse. Outside of Sylvie, only Rose knows what happened during the confusing hospital fire. She has vowed not to reveal what she knows because she does not want to hurt her friend Rachel. However, knowing that she is dying, Sylvie feels compelled to reveal the truth, but hesitates for fear of what it will do to everyone she holds dear. The sequel to GARDEN OF LIES, THORNS OF TRUTH, holds up to the quality level of the first novel. The continuation into middle age of the two criss-crossed women is brilliantly described due to the strong characterizations, including the secondary players. The story line is a classical tear jerker that requires a fresh towel for every fifteen pages (a handkerchief is not big enough for all the weeping). Readers will gouge on Eileen Goudge's gut wrenching, heart warming tale. Harriet Klausner 0 von 0 Kunden fanden die folgende Rezension hilfreich. Sequel doesn't measure up Von Ein Kunde I was anxious to read the sequel to GARDEN OF LIES, which is one of the greatest novels ever written in history. I was hoping for a novel of equal magnitude with THORNS OF TRUTH, but instead was left wondering "what happened"? Although it was wonderful to read how all the characters turned out over the years and to learn about their children's lives, too, I felt there was way too much written about past history of the original characters. Anyone who would have read this book knows that it's a sequel and it certainly was not necessary to practically repeat excerpts from GARDEN OF LIES over and over again. I felt that was an entire waste of redundant writing. Although the novel wasn't very many pages, a great deal of the writing was very detailed, which grew tiresome. I would have liked more dialogue amongst the characters. There lacked a real plot other than the family try to deal with Drew and Iris's engagement. The best part of the book was Sylvie, who was weak from her ailment, but remained strong in character. I'm glad I got this book from the library because otherwise I would have been disappointed to waste my money on the book. It could have been a lot better but Ms. Goudge's chose a different route instead. This will not prevent me from reading any future novels by Ms. Goudge but I hope they will be of better content than this one.

Kurzbeschreibung Nearly five decades after they were swapped at birth, two women change each others lives
