Er hat spannende Bücher geschrieben. Auch dieses Buch hat durchaus seine spannenden Stellen. Dennoch muss ich in zweierlei Hinsicht Kritik benoten: * Der Thematik (Cyberspionage, Cyberkrieg) wird das Buch in keiner Weise gerecht. Ein solches Buch könnte hier - auch

technisches - Hintergrundwissen vermitteln und sensibilisieren. Gerade in vielen Iteren Bchern hat Clancy doch oft auch Waffensysteme und der gleichen oder Angriffstaktiken beschrieben. Davon ist jedoch nicht Gebrauch gemacht worden.* Ferner ist das Buch extrem amerikafreundlich kitschig. Wenn sich die Chinesen "reinhacken" ist es bse, wenn die Amis das gleiche machen, dann nur zum Guten Zweck und es ist vllig ok. Etwas weniger blinden Patriotismus, dafr mehr ausgewogene Abwngung des Einsatzes von Cyberspionage, Cyberwaffen und Drohnen sowie den beeintrchtigten Menschenrechten wre absolut angebracht.Kurzum: Ich bin schon erheblich besser unterhalten worden, gibt nur 3 Sterne.Kommentar2 von 4 Kunden fanden die folgende Rezension hilfreich. Shameful research... Von Jose Lobo de Mirandathe story is not bad - like a tasty chewing-gum - but I find it unacceptable that such a huge book-production machine (Tom Clancy's) doesn't know how to research the subject before going to the press. Among other faults, one of the main topics in the book are the SEZ (special economic zones) in China. Well, here they decide to include Hong Kong and Macau in the same bag and declare them both as UK ex-colonies. Typical; America is the world and why bother with geographical and historical details isn't it?Just in case you may be interested Macau was a Portuguese colony not a British one. Not tremendously important but I like to trust my books and my authors. Call me old-fashioned ?0 von 3 Kunden fanden die folgende Rezension hilfreich. SuperVon JohnSpanned, well read and hard to stop listening - made a long road trip go by very quickly. Tom Clancy is fantastic.

KurzbeschreibungThe spies are being spied on in Tom Clancy's Threat Vector, the latest gripping addition to the Jack Ryan Jr series. When Jack Ryan Jr, on a highly secret, off-the-books Campus mission in Turkey, discovers that his team's every move is monitored, he knows that US intelligence has been fatally compromised. Back in the States, President Ryan watches in horror as China's weakened leader bends to a war-mongering general intent on turning the East into a bloodbath. At the same time, America comes under cyber attack from China, crippling government and military infrastructure. President Ryan needs to act: a covert team must go in and neutralise these threats, and the Campus is the perfect fit. Except a sinister figure known only as the Center is watching the Campus and Jack Ryan Jr's every move. Any misstep will be their last . . . Jack Ryan is back and he's got everything to play for in Tom Clancy's masterful Threat Vector. The Jack Ryan Jr series also includes The Teeth of the Tiger, Dead or Alive and Locked On. Praise for Tom Clancy: 'Clancy creates not only compelling characters but frighteningly topical situations and heart-stopping action' Washington Post 'He constantly taps the current world situation for its imminent dangers and spins them into an engrossing tale' New York Times Book Pressestimmen "Each plotline comes to us mainly in a series of tightly written action scenes...as visual as anything on a movie screen, with the added enticement of crisp, accurate and hard driving prose." --Chicago Tribune "Hard to put down." --Pittsburgh Post-Gazette
