one day. They say the modern romantic literature is now written in a funny, desperate and more feminist way. I disagree with that. Taking the famous Bridget Jones as an example, I have to say that, even being a little funny the first time, to a male audience, the second book about this character didn't seem as fetching as the first one. While one was a bit funny and interesting to a man, the second one seemed slow, repetitive and not as good. And to the few male audience Danielle Steel has, since the overwhelming audience is made of women, this does not happen with Danielle Steel anyway. Although her books have always the same kind of plot: a person who suffers from beginning to end - usually a woman - finding at that end a person to love and live happily ever after - her books are interesting, they have a real plot, and they are a good reading because they portrait people like us all. They seem real, while the "funny" and "modern" ones usually don't portrait a real person to the reader, but a kind of freak that is usually presented to the reader in a way almost like a caricature. Danielle Steel knows how to portrait to the reader everything. Since the dramas and suffering everyone feels during a lifetime, and the happiness, joy and pleasure to live we all have. That's exactly what happens with this book. THURSTON HOUSE has all this. Even being a little melodramatic with some destination the characters take, the book has also many enjoyable scenes, showing to the reader she has many things to offer as a real modern novelist. This book is everything you could expect from a book like that. And I'm quite sure that, if you like this kind of stories, you'll love that one, which to me is one of Danielle's best books. If you don't like that genre but is curious on how it works, this is also a great reading. The only thing you can't do is miss this book. You have to read that one and be as hooked as I was when I read it. Marco Aurelio. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Not a fan of romance novels, but this one is great! :) Von Arcadia I read this book for the 1st time several years ago, and I've read it a few more times since then! I always like to go back to the story of Jeremiah, Camille, and Sabrina. I can't believe how Jeremiah was fooled into thinking Camille was sweet and innocent, when she was really a vicious and selfish gold-digger. Fortunately their daughter Sabrina turned out to be nothing like her mother and was able to run her father's business as well as he could, despite opposition from the men. I admire her for wanting to have a career, this book takes place in the 1900's when women weren't supposed to have careers. I felt sorry for her when her son Jonathan turned out to be just like his grandma (Camille), selfish and only interested in money. But she turned out to have a peaceful life once she got married again and had a child when she was in her 50's (again I felt happy for her) even though that was probably another unusual thing back then. Overall this book was fantastic but I think Jeremiah would've been much happier had he married his friend Amelia, she was everything Camille was not: kind, classy, and mature! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Her best (older) book! Von Ein Kunde Although it's been over 10 years since I first read Thurston House, it was the first Danielle Steel book I had ever read. It was what got me started reading her books, and now I reserve a book as soon as I hear one is about to be published. As I recall, it is about several generations of a family, and although, if not read carefully, it can get rather confusing and deep with all of the characters. Compared to some of Danielle Steel's more current books, it had more depth than those of recent times, probably because she wasn't publishing at least two books a year as she now does. I'm ready to dig into it again!

Kurzbeschreibung Hard work had made Jeremiah rich: at the age of forty-four he was one of the wealthiest mining barons in America. When he married the captivating Camille - less than half his age - he was looking for more than love. He was looking for a woman to found a great family. And for that family, he built a mansion: Thurston House. The vast mansion was the finest in the city - a palace for a prince, a princess and their children. In bricks and mortar, turrets and columns, it symbolised the great power of the new dynasty it was to house. Many generations would live and love and die in Thurston House. Each generation would ask itself whether money alone can buy happiness, a family and love. Thurston House is the compelling tale of three generations of the Thurston family: Danielle Steel is a master storyteller.
