Von Crystal Bennett : Time and Again (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Time and Again (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Super "Twists" Von Cathie Es hat mir die Art und Weise gefallen wie "Hawthorne" mit der modernen Tech und dem Verhalten kmpft und die fantastische Twist nachdem Melanie sich in ihm total verliebt hat. Das Buch ist klug geschrieben. Ich konnte nicht aufhören es zu lesen, sodass ich zu spst ins Bett gegangen bin. Die ersten paar Kapitel sind ein bisschen langsam und ich kmpfte mit der Idee, dass eine vernnftige Frau ins Central Park nach Einbruch der Dunkelheit bewusst dahin gehen wrde, nur weil sie ein "Gefhl" verfolgt. Daher nur 4 Sterne, aber sonst ist es eine

super Geschichte.

Kurzbeschreibung After years of single living, Melanie's world is flipped upside down when she finds a chivalrous and handsome gentleman known as Hawthorne badly beaten in Central Park. Melanie is inexplicably drawn to this curious man and soon finds herself hosting him in her home. While nursing her unanticipated guest back to health, Hawthorne unveils an awkward secret: the last thing he remembers, he was receiving a vicious beating in an attempt to defend his sister's honor in 19th century London. Melanie's priorities quickly shift as she and Hawthorne investigate his past, searching for any information on his sister's well-being and a way to get him back home. In the process, Hawthorne is introduced to movies, hot showers, modern sexuality, and pizza. As time goes by, they are both faced with the same question: is it time to give up their old way of life and accept the new happiness they have found? Little does Melanie know, Hawthorne harbors yet another deep secret: a secret he himself is oblivious to a secret with the power to rip them apart, drive them together, and change their lives completely.
