Von Jonathan Kellerman : Time Bomb: An Alex Delaware Novel before purchasing it in order to gauge whether or not it would be worth my time, and all praised Time Bomb: An Alex Delaware Novel:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Lesen, lesen, lesenVon Yvonne SchreiberDies war mein erster Kellerman und seitdem nicht mein letzter. Er schafft es, eine schier unertrgliche Spannung aufzubauen, so da es mich abends alleine daheim durchaus so manches mal gegruselt hat und ich lieber erst am nchsten Tag weitergelesen habe.Sehr empfehlenswert!0 von 0 Kunden fanden die folgende Rezension hilfreich. Jonathan Kellerman does it again!Von Kindle CustomerI got Time Bomb for Christmas and I could not put it down, it was so good, I would stay up late, not wanting to stop. Jonathan Kellerman is the master of psyschological thrillers. Here is a little about the story.When Alex Delaware gets a call from his friend, LAPD homicide detective, Milo Sturgis, he is asked to come down to a school which as been targeted by a sniper, and help the kids. When he gets there, he finds that the details are sketchy and all that he learns is that the sniper has been killed without hurting anyone. Milo tells him that the sniper was a girl, nonviolent, and had mental difficulties. Now, Alex has to figure out, was the sniper a killer, or just another victim?0 von 0 Kunden fanden die folgende Rezension hilfreich. A dynamic amateur sleuth!Von Ein KundeOn my way to the theater I had some time to kill. I stopped in the Wal-mart and browsed their bargain bin of books. The price I paid for Time Bomb was a steal. I have read everything by the author since and have started reading his wife's works also. Alex Delaware is an original, a reluctant detective who happens to be a brilliant child psychologist. His friend Milo goes against all the stereotypes as a macho gay detective who isn't afraid to buck the system in the name of justice. The ending was totally unexpected but plausible. Kellerman has a winner with his series. I am currently reading The Clinic

KurzbeschreibungBONUS: This edition contains an excerpt from Jonathan Kellerman's Guilt.NEW YORK TIMES BESTSELLER By the time psychologist Dr. Alex Delaware reached the school the damage was done: A sniper had opened fire on a crowded playground, but was gunned down before any children were hurt. Virtually impossible to put aside until the final horrifying showdown.People While the TV news crews feasted on the scene and Alex began his therapy sessions with the traumatized children, he couldnt escape the image of a slight teenager clutching an oversized rifle. What was the identity behind the name and face: a would-be assassin, or just another victim beneath an indifferent California sky? Intrigued by a request from the snipers father to conduct a psychological autopsy of his child, Alex begins to uncover a strange patternit is a trail of blood. In the dead snipers past was a dark and vicious plot. And in Alex Delawares future is the stuff of grown-up nightmares: the face of real human evil.From Publishers WeeklyAfter a sniper opens fire at an elementary school in an L.A. suburb, LAPD Detective Milo Sturgis calls in his friend, child psychologist Alex Delaware (seen last in Silent Partner). None of the children is hurt, but the shooter, a young woman named Holly Burden, is killed by the bodyguard of one of two politicians visiting the school. While helping the kids overcome the trauma of the shooting, Delaware becomes involved with the edgy, dedicated principal, Linda Overstreet. He also agrees to Holly's father's request to do a "psychological autopsy" to clear his daughter's name. As racist-motivated vandalism at the school accelerates, Milo discovers that a black friend of Holly's was recently killed by police; then one of the politicians is gunned down. Alex's life is threatened as he traces events to a revival of the German American Bund and an unexpected political alliance with roots in an explosion of 20 years earlier, echoed in the fiery resolution here. Kellerman's meticulously constructed thriller, while leaning hard on the anti-Semitic component of its plot, again demonstrates how well the role of sleuth fits that of therapist; Alex, a little lost without former girlfriend Robin, speaks with a a unique, convincing voice. 150,000 first printing; Mystery Guild selection; Literary Guild and Doubleday Book Club alternates. Copyright 1990 Reed Business Information, Inc.From School Library JournalYA-- Kellerman provides his fans with yet another of his exciting tales centered on Dr. Alex Delaware, psychologist/sleuth. Set in California, the book opens with a near massacre in a schoolyard. In this intricately plotted story, the hero is challenged to locate a cleverly disguised villain from a collection of normal and not-so-normal suspects. The rapid pace carries readers into a world of politicians who are more than they seem to be on the surface, families that dysfunction in spectacular ways, and suspicious characters with murky and unusual pasts. In his examination of political extremism, the author touches on an issue that is both timely and thoroughly fascinating. Although the psychoanalytical aspect occasionally becomes a bit overbearing--minor characters using professional-level terminology, for example--the overall effect is engrossing. A minor love theme is played out, and a spectacular and violent climax pulls the disparate threads of the story together. Kellerman's fans won't be disappointed.- Carolyn E.
