Von Kathryn Reiss : Time Windows before purchasing it in order to gage whether or not it would be worth my time, and all praised Time Windows:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. it's one of the best books i've read in the past 3 years!!Von Ein Kundethis book is an amazing thing to read. kathryn plots it well, and everything is all tied together in one way or another in the end. if you skip 1 paragraph you'll become lost

because kathryn doesn't put in all of the boring detail that is in most other books. she keeps you interested, and wondering what in the world'll happen next. you can never tell what's going to happen or when, because there's no way. something just hits miranda when you thought it wouldn't. time windows isn't kathryn's only thrilling book, either. THE GLASS HOUSE PEOPLE is also an awesome one, although this is more twisting and more mind-boggling. it's the only science-fiction book i've ever liked. it really makes you wonder where to draw the line between fantasy- and reality.0 von 0 Kunden fanden die folgende Rezension hilfreich. I've read many books, and of all, this is my favorite. Von Ein Kunde Miranda moves into an eerie old house in the country. While exploring the attic, she discovers an exact model of the house, only in the form of a dollhouse. She is intrigued and looks around the dollhouse, only to find that it can replay the past, like the house has its own magical powers to show its horrid, unlucky history. She spends so much time in the attic, she doesn't realize that the history of her new home is repeating itself, and her own life as well as others are in danger. The story has a wonderful yet mysterious ending that any reader, young or old, is sure to enjoy.0 von 0 Kunden fanden die folgende Rezension hilfreich. Absolutly Excellent! I couldn't put it down. Von Ein Kunde ~If anyone knows the name of the sequel to this book will you please send me the title. Thanks! I started reading this book with my mom, we read it every so often. Finally I just got sick and tired of reading "every so often" so I told her I would read it on my own. I started reading it this Thanksgiving and finished the next day. All of my family was having a great time and asked me if I wanted to join them, I was too busy reading my book. You just can't stop reading when there is so much suspense about the Galworthy's. I was the best book I ever read!

Kurzbeschreibung When Miranda moves with her family to a new house in a small Massachusetts town, she discovers a mysterious antique dollhouse. Through the windows, she is shocked to find what seem to be living people in the tiny rooms, and gradually she realizes that scenes from the lives of the big houses past inhabitants are being replayed there. With numerous deftly sketched characters, including a sympathetic boy next door, an intriguing plot, and such dividends as a secret room used to hide escaping slaves, this should keep readers interested. Well wrought and entertaining. Kirkus s
